

FILED by order  
of the Board of Directors of  
The Metropolitan Water District  
of Southern California  
at its meeting held JAN 14 1992

**MWD**

METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

*[Signature]*  
Executive Secretary

December 17, 1991

To: Board of Directors (Water Problems Committee--Information)  
Board of Directors (Engineering & Operations Committee--Information)

From: General Manager

Subject: Second Quarter Status Report on the Local Projects Program

Report

Pursuant to Administrative Code Section 2720, the following quarterly report on the status of the Local Projects Program (LPP) is submitted for your information. The LPP provides a financial contribution to local agencies that develop and produce reclaimed water that reduces a demand for Metropolitan's imported supplies.

In the second quarter of fiscal year 1991-92, LPP agreement for the Otay Water Reclamation Project Phase I was executed. Six other projects are currently under review. The status of all these projects is summarized on the attached table.

Currently, the LPP has 26 approved projects with an ultimate yield of 138,189 acre-feet per year (AFY). Fifteen of these projects are in operation. It is estimated that the approved projects will produce about 110,000 AFY by the year 2000.

The LPP has a goal of reaching 200,000 AFY of reclaimed water production by the year 2000. If the projects now under review are approved, the reclaimed water production from all projects will total about 150,000 AFY by the year 2000.

Board Committee Assignments

This letter was referred for information to:

The Water Problems Committee because of the requirement for quarterly reports on the status of the Local Projects Program imposed by Administrative Code Section 2720(e); and

The Engineering and Operations Committee because of the requirement for quarterly reports on the status of the Local Projects Program imposed by Administrative Code Section 2720(a).

Recommendation

For information only.

  
for Carl Boronkay
