

**MWD**

METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

December 29, 1992

To: Board of Directors (Water Problems Committee--Information)
Board of Directors (Engineering & Operations Committee--Information)

From: General Manager

Subject: Second Quarter Status Report on the Local Projects Program

Report

Pursuant to Administrative Code Section 2720, the following quarterly report on the status of the Local Projects Program (LPP) is submitted for your information. The LPP provides a financial contribution of \$154 per acre-foot to local agencies that develop and produce reclaimed water that reduces a demand for Metropolitan's imported supplies.

In the second quarter of fiscal year 1992-93, the Encina Basin Water Reclamation Project Phase I and the Rancho Santa Fe Reclaimed Water System were approved for inclusion in the LPP. The Encina Basin project, located in Carlsbad, would distribute about 2,050 acre-feet per year (AFY) of tertiary treated water from the Meadowlark Water Reclamation Facility and Gafner Water Reclamation Facility for golf course, landscape, freeway, and agricultural irrigation. The Rancho Santa Fe project, located in the City of Rancho Santa Fe, would distribute about 220 AFY of reclaimed water from the Rancho Santa Fe Water Pollution Control Facility for irrigation of the Rancho Santa Fe golf course. In addition, agreements for the Encina Water Pollution Control Facility Reclamation Project and Rio Hondo Water Reclamation Program were executed.

Currently, the LPP has 32 approved projects with an ultimate yield of about 157,000 AFY. Twenty-one of these projects are in operation and delivered 15,894 acre-feet of reclaimed water during fiscal year 1991-92. The approved projects are listed in Table 1.

Seven reclamation projects with a potential yield of about 41,400 AFY are currently under review. The status of these projects is summarized in Table 2.

Board Committee Assignments

This letter is referred for information to:

The Water Problems Committee because of the requirement for quarterly reports on the status of the Local Projects Program imposed by Administrative Code Section 2720(e); and

The Engineering and Operations Committee because of the requirement for quarterly reports on the status of the Local Projects Program imposed by Administrative Code Section 2720(a).

Recommendation

For information only.

Carl Boronkay
