[Signature]
EXECUTIVE SECRETARY

7-3

February 14, 1994

To: Board of Directors (Engineering and Operations Committee--Action)

From: General Manager

Subject: Award of Contract in the Amount of \$1,230,000 to Pascal & Ludwig Engineers for Relocation of a Portion of the Calabasas Feeder Under Specifications No. 1271, as Amended

Report

Specifications No. 1271, as amended, calls for relocation of a portion of the Calabasas Feeder. This work is being performed in order to comply with the terms and conditions set forth in Utility Agreement 7Ut-9450 between Metropolitan and the California Department of Transportation (Caltrans) to relocate a portion of Metropolitan's Calabasas Feeder to accommodate the construction of the proposed Route 101 Ventura Freeway Interchange project at Valley Circle Boulevard/Mulholland Drive in the city of Los Angeles.

Ten bids were received under Specifications No. 1271, as amended. The proposals are shown on the attached Abstract of Bids. The low bid of Pascal & Ludwig Engineers in the amount of \$1,230,000, complies with the requirements of Specifications No. 1271, as amended, is \$90,000 over the Engineer's estimate and is \$55,000 under the next lowest bid. Pascal & Ludwig Engineers is qualified to perform this work.

Funds for this project are available under Appropriation No. 102 for reimbursable projects. In accordance with Utility Agreement 7Ut-9450, all costs incurred by Metropolitan for the work associated with the interchange project construction shall be borne by the State, except for an allowance for depreciation of the pipe which is estimated to be less than \$25,000 and is available under the Annual Budget Appropriation.

Your Board's compliance with the requirements of CEQA is complete. Pursuant to the California Environmental Quality Act (CEQA), Caltrans, acting as Lead Agency, prepared a mitigated Negative Declaration for the project. Caltrans has determined that the mitigation measures recommended in the Negative Declaration will reduce the project impacts to a less

than significant level. Your Board considered the information contained in the mitigated Negative Declaration prior to approving Metropolitan's participation in this project in May 1993.

This specification, as amended, established Minority-Owned Business Enterprise (MBE) and Women-Owned Business Enterprise (WBE) certified subcontractor participation goals of 9% MBE and 3% WBE. It also specified that a bidder which does not meet the indicated participation goals must submit documentation of its good faith effort to meet such goals. Pascal and Ludwig achieved 4.8% certified MBE participation and no WBE participation. The listed MBE subcontractor is Ayala Boring, Inc. Since Pascal and Ludwig did not meet the participation goals, its good effort was reviewed by the Business Outreach Coordinator, the Legal Department, and the Engineering Division. Pascal and Ludwig's documented good faith effort meets the criteria set forth in the specification and is acceptable.

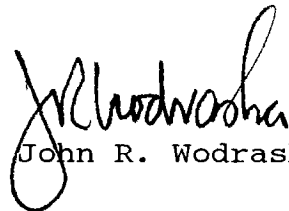

Board Committee Assignments

This letter is referred for action to the Engineering and Operations Committee because of its jurisdiction over initiation, scheduling, contracting and performance of construction programs, pursuant to Administrative Code Section 2431(b).

Recommendation

ENGINEERING AND OPERATIONS COMMITTEE FOR ACTION.

It is recommended that the General Manager be authorized to execute a contract with Pascal & Ludwig Engineers in the amount of \$1,230,000 to relocate a portion of the Calabasas Feeder, and that, conditioned upon execution of the contract, all other bids be rejected.

John R. Wodraska

THE METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

Abstract of Bids Received February 1, 1994 at 2:00 p.m.

Specifications No. 1271, as amended
Calabasas Feeder Relocation

The work under these specifications involves the construction of approximately 1,140 feet of 59-inch inside-diameter-welded-steel pipeline, including the construction of manhole, air release and pumping well structures, equipment and appurtenances. The work is to be completed within 160 working days after the contractor receives the Notice to Proceed. Under this schedule, the work should be completed by December 6, 1994.

Engineer's Estimate: \$1,140,000

Bidder & Location	Item 1 Mobilization	Item 2 Construction of Pipeline and Appurtenances	Item 3 Construction of Electrolysis Test Stations	Total 1, 2 and 3
1. Pascal & Ludwig Engineers Ontario, California	\$65,000	\$1,137,000	\$28,000	\$1,230,000
2. Valley Engineers Fresno, California	\$65,000	\$1,200,000	20,000	\$1,285,000
3. Albert W. Davies, Inc. Rancho Cucamonga, California	\$65,000	\$1,203,000	\$26,000	\$1,294,000
4. Tutor-Saliba Corporation Sylmar, California	\$65,000	\$1,257,000	\$15,000	\$1,337,000
5. Roy E. Ladd, Inc. Redding, California	\$65,000	\$1,320,670	\$20,000	\$1,405,670
6. Mladen Buntich Construction Co. Sunland, California	\$65,000	\$1,355,000	\$28,5000	\$1,448,500
7. Steve P. Rados, Inc. Santa Ana, California	\$65,000	\$1,395,000	\$9,000	\$1,469,000
8. Colich & Sons Gardena, California	\$65,000	\$1,410,386	\$37,750	\$1,513,136
9. Mike Prlich & Sons South El Monte, California	\$65,000	\$1,475,762	\$38,000	\$1,578,762
10. Advanco Constructors Upland, California	\$65,000	\$1,511,933	\$45,000	\$1,621,933
