The Chair declared a quorum present.

40760 Chairman Foley inquired if there were any additions to the agenda.

Committee Chairman Malburg advised that the Water Problems Committee, at its meeting of April 11, received information that if action is not taken to implement the Cooperative Storage Program at today's Board Meeting, some water presently available to Metropolitan will be lost. Committee Chairman Malburg stated that knowledge of the need to act on this matter arose subsequent to the posting of the Agenda, and, therefore, moved that the Board, by a two-thirds vote, add this item to the Agenda for action at today's Meeting. The motion was seconded by Vice Chairman Barker and carried unanimously, representing more than the required two-thirds vote.

Vice Chairman Blake reported that at its meeting of April 11, 1994, the Water Problems Committee voted to take action on the informational Agenda Item 9-12 (Seasonal Storage Service), and moved, seconded by Director Krieger and carried, that this matter be considered for action at today's Meeting.

Vice Chairman Blake reported that at its meeting of April 12, 1994, the Legislative Committee voted to take action on the informational Agenda Items 9-14 and 9-15 (SB 1924, McCorquodale, and AB 2673, Cortese, respectively), and moved, seconded by Director Krieger and carried, that these issues be considered for action at today's Meeting.

Chairman Foley announced that these matters will be considered for action at today's Meeting.

**40761** Chairman Foley invited members of the public to address the Board on matters within the Board's jurisdiction. No member of the public responded.

**40762** Chairman Foley called the Meeting into a Public Hearing to receive comments on the proposed Water Standby Charge for 1994-95.

Keith Lewinger, General Manager of Otay Water District, expressed support for the Water Standby Charge. He pointed out that it would be prudent to continue the Water Standby Charge after fiscal year 1994-95 citing its benefits to his and other agencies, and urged the Board to develop a program that will allow the simultaneous imposition of both the Water Standby Charge and the Readiness-to-Serve Charge, with each member agency in a position to select the charge proving to be most beneficial.

Director Luddy took his seat at 12:49 p.m.

Mitchell H. Hunt, private citizen, voiced strong opposition to the imposition of the Standby Charge, stating there is no distribution system to his property nor is any planned. Therefore, he has not and will not receive any benefit.

Dennis Kahlie, representing the Mayor and Council of the City of San Diego, reported that the City adopted a resolution supporting the continuance of the Standby Charge beyond fiscal year 1994-95 as the Readiness-to-Serve Charge would adversely impact the economy of the City.

The Chair determined there were no further comments. He thanked the speakers, and, at 12:54 p.m., called the public hearing to a close. He stated the comments received will be taken into consideration prior to Board action on May 10, 1994.

40763 There being no objection, the Chair ordered the reading of the Minutes of February 8 and March 8, 1994, dispensed with, copies having been mailed to all Directors.

- A. Following the conclusion of each fiscal year, the Metropolitan Water District staff shall evaluate how much carryover storage Metropolitan has available and how much more is needed. The needed storage shall be allotted by reservoir and by basin to optimize the availability and usefulness of the storage. The ability to withdraw and use storage

shall be such that 50 percent of the stored water must be accessible in any fiscal year. No Cooperative Storage shall be permitted beyond these limits.

- B. Metropolitan's deliveries to the Cooperative Storage program after April 12, 1994, would be exempted from Readiness-to-Serve and New Demand Charge determinations upon its delivery to storage but included in the year Metropolitan releases the program water. The program water deliveries made prior to April 12, 1994, would be exempted from the Readiness-to-Serve and New Demand Charge determinations.
2. General Manager to implement the Cooperative Storage Program consistent with the program description in the pending letter dated March 23, 1994, including recommendation 1A and 1B above.

Long-

term storage water includes direct groundwater replenishment; water taken under the Cooperative Storage Program, the 1993 Demonstration Storage Program, cyclic storage, and the May through September 1993 Seasonal Storage Program; and seasonal storage water defined as long term in the 1988-89 Seasonal Storage Service Handbook.
