METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

October 24, 1994

To: Board of Directors (Water Problems Committee--Information)

From: General Manager

Subject: Monthly Water Use by Member Agency for Fiscal Year 1993/94

Transmitted herewith is a copy of the report titled "Monthly Water Use by Member Agency for the Fiscal Year 1993/94".

Since the material in this report relates to matters affecting our member agencies, a copy is being sent to the manager of each agency.

INTRODUCTION

This report contains information regarding the monthly water deliveries by Metropolitan Water District to its member agencies during fiscal year 1993-94. Total deliveries this year were 1,929,321.7 acre-feet. We have divided water deliveries into six categories: Basic, Agricultural, Ground Water Replenishment, Seasonal Storage Service, Local Project Program, and Barrier Injection.

The agricultural use shown represents amounts certified. Several agencies discontinued reporting agricultural use since the elimination of financial incentives. This caused a distortion in the apparent agricultural deliveries until Metropolitan reinstated incentives for interim agricultural use in May, 1994.

Ground water replenishment deliveries are shown as an individual class. However, deliveries made this fiscal year were sold under the seasonal storage program.

The table on the following page compares deliveries to member agencies during the last two fiscal years. This table is followed by a bar graph showing the comparison. This graph is followed by a circular chart which shows the composition of water deliveries by category of service. The next table and comparison bar chart shows the total of all member agencies deliveries by service categories. Finally, tables and companion bar charts are presented showing monthly deliveries to each member agency by service category.

This document reflects Metropolitan's records as of August 31, 1994.

METROPOLITAN WATER DISTRICT'S

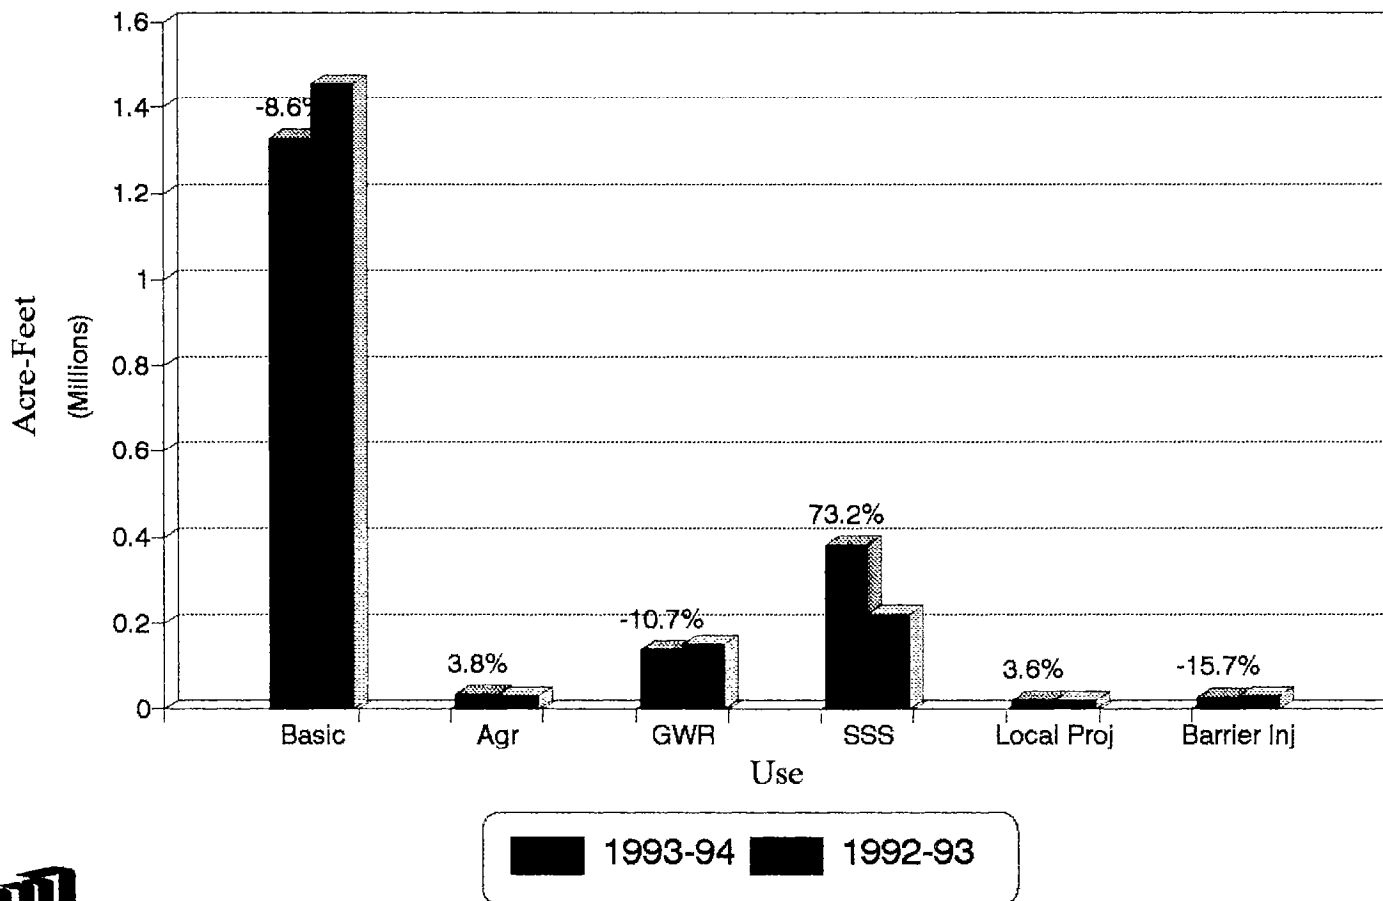

COMPARISON OF DELIVERIES TO MEMBER AGENCIES FOR THE PAST TWO FISCAL YEARS

IN ACRE FEET

Use	1993-94	1992-93	Percent Change
Basic	1,330,425.2	1,455,223.3	-8.6%
Agricultural	33,109.1	31,909.9	3.8%
Ground Water Replenishment	136,955.8	153,372.8	-10.7%
