

THE METROPOLITAN WATER DISTRICT
OF SOUTHERN CALIFORNIA

RESOLUTION 8465

RESOLUTION OF THE BOARD OF DIRECTORS
OF THE METROPOLITAN WATER DISTRICT OF
SOUTHERN CALIFORNIA
GIVING NOTICE OF INTENTION TO IMPOSE
NEW DEMAND CHARGE

WHEREAS, at its meeting on December 14, 1993, the Board of Directors ("Board") of The Metropolitan Water District of Southern California ("Metropolitan") approved the rate structure and additional revenue sources described in the Board letter on the Financial Structure Study dated December 1, 1993, including a new demand charge, with implementation of these charges to begin in fiscal year 1995-96;

WHEREAS, providing firm revenue sources is a primary goal of such revenue structure;

WHEREAS, the amount of revenue to be raised by the new demand charge shall be as determined by the Board and allocation of such charge among member public agencies shall be in accordance with the method established by the Board;

WHEREAS, Metropolitan has legal authority to impose such new demand charge as a water rate pursuant to Section 134 of the Metropolitan Water District Act, as a capital facilities fee pursuant to Section 54999.2 of the California Government Code and as an availability of service charge pursuant to Section 134.5 of the Metropolitan Water District Act;

WHEREAS, under authority of Sections 133 and 134 of the Metropolitan Water District Act, the Board has the authority to fix the rate or rates for water as will result in revenue which, together with other revenues, will pay

Metropolitan's operating expenses and provide for payment of other costs, including payment of the interest and principal of Metropolitan's bonded debt;

WHEREAS, pursuant to Resolution 8329, adopted by the Board on July 9, 1991, proceeds of the readiness-to-serve charge, new demand charge and other revenues from the sale or availability of water are pledged to the payment of Metropolitan's outstanding revenue bonds issued and to be issued pursuant to Resolution 8329;

WHEREAS, under authority of Government Code Section 54999.2 Metropolitan may impose a capital facilities fee to pay the capital cost of facilities for the provision of water service;

WHEREAS, the new demand charge is intended to recover the debt service of expenditures for projects needed to satisfy anticipated new demands on Metropolitan, as shown in the Nexus Study dated January, 1995, prepared by Metropolitan in support of the new demand charge; and

WHEREAS, under authority of Section 134.5 of the Metropolitan Water District Act, an availability of service charge may be collected from the member public agencies within Metropolitan.

NOW, THEREFORE, the Board of Directors of The Metropolitan Water District of Southern California does hereby resolve, determine and order as follows:

Section 1. That the public interest and necessity require Metropolitan to develop firm net revenues, exclusive of ad valorem property taxes, through imposition of a new demand charge on all sales representing new demands on Metropolitan, as described below, to be collected from Metropolitan's member public agencies.

Section 2. That such new demand charge should be in an amount sufficient to provide for payment of the debt service, not paid from ad valorem property taxes, of capital expenditures for projects needed to serve anticipated increases in demands on Metropolitan.

Section 3. That such new demand charge for 1995-96 shall be a water rate of \$1,000 per acre foot for all new

demands by a member agency on Metropolitan, determined as provided in Section 8 below.

Section 4. That in the alternative, and without duplication, the new demand charge shall be a capital facilities fee in the amount of \$1,000 per acre foot of new demand on Metropolitan, determined as provided in Section 8 below.

Section 5. That this Board finds that the proposed new demand charge is necessary for the purpose of financing construction costs of public utility facilities furnished by Metropolitan, and does not exceed the proportionate share of the cost of the public utility facilities of benefit to each person or property being charged, based upon the proportionate share of use of those facilities.

Section 6. That in the alternative, and without duplication, the new demand charge shall be an availability service charge pursuant to Section 134.5 of the Metropolitan Water District Act.

Section 7. That notice is hereby given to the public and to each member public agency of The Metropolitan Water District of Southern California of the intention of Metropolitan's Board to consider and take action at its regular meeting to be held March 13, 1995, on the General Manager's recommendation to impose a new demand charge of \$1,000 per acre foot of water on all sales representing new demands on Metropolitan in fiscal year 1995-96.

Section 8. That the new demand charge shall be imposed on a member public agency when the average of the member public agency's purchases (in acre feet) from Metropolitan in the four most recent years, including the current fiscal year, after adjustment for long-term storage water, exceed such member agency's new demand charge base. Such new demand charge shall be payable in the fiscal year following the year in which it is imposed. Long-term seasonal storage deliveries during May through September 1993 and May and June 1994, and water taken under one-time drought storage agreements, Cooperative Storage Program through April 12, 1994, and the 1993 Demonstration Program are subtracted from the water sales calculation through the fiscal year period ending June 30, 1994. Long-term seasonal storage service water is defined as water that a member public agency leaves

in storage past the end of the fiscal year through avoided production during a period of availability (normally October 1 through April 30). Long-term seasonal storage service, cyclic storage, Cooperative Storage Program, and contractual long-term storage water deliveries will be excluded from the new demand charge calculation during the year of delivery but will be included in the year of use. Member public agencies shall indicate the amount and year in which the long-term stored water is used. Long-term seasonal storage service water must be accounted within seven years from the year in which the water was placed into storage. Member public agencies overlying a common groundwater basin shall be allowed to account for their purchases as a single, common purchaser.

Section 9. That each member public agency's new demand charge base (in acre feet) will be determined on the largest of three averages: 1) the average of its purchases from Metropolitan in the three fiscal years 1989-90 through 1991-92, excluding one-time drought storage sales; 2) the average of its purchases from Metropolitan in the four fiscal years 1989-90 through 1992-93, excluding one-time drought storage agreement sales and long-term seasonal storage deliveries attributable to May and June 1993; or 3) its readiness-to-serve charge allocation for fiscal year 1995-96. Each member public agency's new demand charge base is as follows:

Proposed New Demand Charge Base

<u>Member Agency</u>	<u>Base Amount (AF)</u>
Anaheim	24,944
Beverly Hills	13,614
Burbank	20,446
Calleguas MWD	99,025
Central Basin MWD	115,834
Chino Basin MWD	76,265
Coastal MWD	41,441
Compton	5,026
Eastern MWD	55,603
Foothill MWD	9,610
Fullerton	12,262
Glendale	26,456
Las Virgenes MWD	18,525
Long Beach	42,539
Los Angeles	358,504

MWD of Orange Co.	243,828
Pasadena	22,638
San Diego CWA	559,247
San Fernando	903
San Marino	1,327
Santa Ana	15,840
Santa Monica	8,889
Three Valleys MWD	69,664
Torrance	20,311
Upper San Gabriel MWD	71,899
West Basin MWD	167,634
Western MWD of Riverside Co.	78,177

TOTAL 2,180,451

Section 10. That this Board finds and determines that such new demand charge base is a reasonable approximation of each member agency's current demands on Metropolitan's system.

Section 11. That upon payment of any new demand charge by a member agency, that member agency's new demand charge base shall be increased by an amount equal to the quantity of water on which the new demand charge was paid.

Section 12. That the new demand charge shall be incurred upon Metropolitan's determination that a member agency's historic average deliveries of Metropolitan water in the immediately preceding four fiscal years have exceeded such member agency's new demand charge base. Any new demand charge so incurred shall be due and payable sixty days after mailing of Metropolitan's invoice for such charge.

Section 13. That such new demand charge may be paid, without penalty, in equal monthly installments over a period of up to fifteen (15) years, provided that amounts subject to deferred payment shall bear interest at a rate determined by Metropolitan (which shall be equal to Metropolitan's cost of funds at the time of such determination), from the date due until payment is received by Metropolitan.

Section 14. That the new demand charge and the new demand charge base for each member public agency, the method of its calculation, and the project costs, cost allocations

and other data used in its determination are as specified in the Nexus Study on file and available for review by interested parties at Metropolitan's headquarters.

Section 15. That the General Manager and the General Counsel are hereby authorized to do all things necessary and desirable to accomplish the purposes of this Resolution, including, without limitation, the commencement or defense of litigation.

Section 16. That this Board finds that the proposed new demand charge is exempt from the provisions of the California Environmental Quality Act (CEQA) since it constitutes the creation of government funding mechanisms which do not involve commitment to any specific project which may result in a potentially significant physical impact on the environment or which will be used to fund projects which have CEQA documentation or which will have CEQA documentation in place prior to construction of any facility or facilities.

Section 17. That the General Manager is hereby authorized and directed to take all necessary action to satisfy relevant statutes requiring notice by publication.

Section 18. That the Executive Secretary is hereby directed to transmit a certified copy of this Resolution to the presiding officer of the governing body of each member public agency.

I HEREBY CERTIFY, that the foregoing resolution was adopted by the Board of Directors of The Metropolitan Water District of Southern California on January 10, 1995.

A handwritten signature in cursive script, appearing to read "Regina H. [unclear]". The signature is written in black ink and is positioned above a horizontal line.
