EXECUTIVE SUMMARY:

The attached resolution form is intended to increase the District's share of tax revenue from subject redevelopment project expected to be authorized under the Community Redevelopment Law (Sections 33000 et seq., of the Health and Safety Code of the State of California). This would occur in the event the District should increase its property tax rate at some time in the future.

DETAILED REPORT:

Existing provisions in the Community Redevelopment Law permit redevelopment agencies to raise revenue through a procedure known as tax increment financing. This is accomplished by the adoption of a redevelopment plan containing a provision which limits various taxing agencies overlying the area of the redevelopment project to whatever revenue may be raised by their tax rate applied to a frozen assessed valuation on project property. In theory, but for the redevelopment project, the assessed valuation of the blighted area encompassed by the redevelopment project would diminish or at best remain the same. Accordingly, any increase in assessed valuation resulting from the redevelopment project can be equitably allocated to the redevelopment agency for the repayment of debt incurred by the agency for the redevelopment of the area.

Under the provisions of Section 33670 of the Community Redevelopment Law, the various overlying taxing agencies receive the tax revenue levied on the frozen assessed valuation and the redevelopment agency receives any additional tax revenue attributable to incremental assessed value, unless the taxing agency adopts a resolution (prior to the adoption of the redevelopment plan providing for tax increment financing) pursuant to Section 33676, electing to be allocated that portion of the tax revenue on the incremental assessed valuation attributable to increase in the taxing agency's tax rate occurring after the base year.
