DETAILED REPORT

Pursuant to Administrative Code Section 2720(d), the First Quarterly Report of Consulting and Professional Services Agreements for the 1997/98 Fiscal Year (FY) is attached hereto as Exhibits A through D.

Exhibit A lists agreements that were recorded as active during the first quarter of the 1997/98 FY. Agreements that were terminated during the FY are shaded. The exhibit includes the types of service provided, brief scopes of work, agreement amounts, and payment data. (See Exhibit D for the service ID key.) Rollover agreements are marked with an asterisk. Rollover agreements are those agreements with an annual not-to-exceed maximum amount payable. Metropolitan implemented a policy in May 1997 limiting the term of a rollover agreement to three years. Division manager approval must be obtained to extend the term of the agreement beyond the three years.

New to this report are Exhibits B and C which incorporate Audit and Legal Department agreements. Included in these exhibits are brief scopes of work, agreement amounts, and payment data.

The amount paid for consulting and professional services during the first quarter totaled \$27,291,312. The amount expended includes \$25,573,520 paid on agreements administered by the General Manager's Department, \$1,635,854 paid on agreements administered by the Legal Department, \$21,442 paid on agreements administered by the Audit Department, and an additional \$60,496 paid on agreements with maximum amount payables of less than \$25,000.

As a result of continuing efforts to reduce the number of inactive agreements reported to your Board, 90 were terminated at the end of the 1996/97 FY, and an additional 14 were terminated during the first quarter of the 1997/98 FY. As of September 30, 1997, 429 were reported as open.

Sixty-seven of the agreements listed in Exhibit A were authorized under a separate Board letter in June and December 1997 for providing temporary employees for the Engineering Division. Of the \$17,000,000 approved by the Board for temporary and part-time personnel for the 1997/98 FY, \$3,699,536 was expended in the first quarter.
