## **Independent Auditors' Report**

The Board of Directors
The Metropolitan Water District
of Southern California:

We have audited the accompanying statement of cash and investments of The Metropolitan Water District of Southern California (the District) as of March 31, 1999 and the related statement of cash receipts and disbursements, by fund category and in total, for the nine months then ended. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in note 1, the accompanying statements of cash and investments and cash receipts and disbursements, by fund category and in total, present a summary of the cash activity of the District prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Such financial statements are not intended to present fairly the financial position or results of operations of the District in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investments of The Metropolitan Water District of Southern California as of March 31, 1999 and its cash receipts and disbursements, by fund category and in total, for the nine months then ended on the basis of accounting described in note 1.

Notes to Financial Statements

March 31, 1999

## (1) Significant Accounting Policies

The accompanying statements of cash and investments and cash receipts and disbursements, by fund category and in total have been prepared by management for the purpose of presenting the cash and investments of The Metropolitan Water District of Southern California (District) as of March 31, 1999, and disclosing the changes in total cash and investments, by fund category and in total, for the nine months then ended, on the cash basis of accounting in accordance with established District policy.

Financial statements prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP), may differ from presentations under generally accepted accounting principles since certain revenues and related assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligations are incurred. Accordingly, the accompanying financial statements are not intended to present the District's financial position and results of operations in conformity with generally accepted accounting principles.

In accordance with Governmental Accounting Standards Board Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" (GASB 31), the District's investments are reported at fair value in its accrual basis financial statements. To facilitate reconciliations between the cash basis financial statements and the District's accrual basis financial statements, cash and investments are presented in the accompanying statement of cash and investments at March 31, 1999 at both cost and fair value.

Cash receipts and disbursements are allocated to the various funds and may not necessarily reflect actual cash transfers. Certain of the funds are also legally restricted to use for a specific purpose. See note 4 for a description of the currently active funds of the District.

## (2) Deposits and Investments

As a public agency, the District's investment practices are prescribed by various provisions of the California Government Code as well as by administrative policies. The District's Statement of Investment Policy is approved annually by the Board and describes the Treasurer's investment authorities and limitations. The District's basic investment policy objectives, in order of importance are: safety of principal, liquidity and return on investment.

The District's demand and time deposits are fully insured or collateralized. Such deposits are covered by Federal depository insurance up to a maximum of \$100,000 per financial institution; deposits in excess of this limit are collateralized by pooled securities held by the financial institution on behalf of the District and other public agencies, as required by state law. State law requires public agency deposits, including time deposits, in excess of insured levels to be collateralized by the depository institutions with pooled government securities having market values of at least 110% of the deposits. To ensure compliance with the 110% requirement, the collateral must be marked to market at least monthly by the bank. The District's investment policy does not permit real estate mortgages or mortgage-backed securities to qualify as acceptable collateral in these pools.

Notes to Financial Statements
March 31, 1999

The District invests in a variety of instruments, including U.S. Treasury securities, Federal agency issues, repurchase agreements and other securities (including negotiable certificates of deposit, bankers' acceptances and prime commercial paper). The District is permitted to sell securities owned under written agreements to buy back the securities on or before a specified date for a specified amount (reverse repurchase agreements). All investments are subject to various limitations and restrictions. In the case of money market instruments issued by private entities, risk is controlled by strict eligibility requirements and duration limitations. All securities purchased are delivered against payment and are held in safekeeping on the District's behalf by the trust department of the bank used by the District.

At March 31, 1999, all of the District's investments, except deposits in the State Treasurer's Local Agency Investment Fund, consist of investments that are insured or registered, or for which the securities are held, in the District's name, in safekeeping at the District's bank, which is not a counterparty to the investment transactions. The District had no investments in reverse repurchase agreements during the nine months ended March 31, 1999.

## (3) Investments Held in Escrow

At March 31, 1999, U.S. Treasury securities with a cost basis totaling \$290,233,150 are being held in escrow trust accounts and represent amounts sufficient to provide debt service for the advance refunding of portions of the Water Revenue Refunding Bonds, 1996 Series B and the Water Revenue Refunding Bonds, 1998 Series A. Such refundings resulted in the defeasance of these bond issues; accordingly, the bond obligations and the related investments are excluded from the District's financial statements.

On March 1, 1999, the U.S. Treasury securities, purchased primarily from bond proceeds, with a cost of \$138,277,925 of Series A1 (Crossover Bonds) of the Waterworks General Obligation Refunding Bonds, Issue of 1993, were used to refund the principal, accrued interest and early redemption premiums on a portion of the District's Waterworks Bonds, Election 1966, Series G dated June 1, 1989.

## (4) Description of Currently Active Funds of the District by Fund Category

## (a) Operating Funds

#### • General Fund (Fund No. 1001)

This fund was established in 1929. This fund contains operating revenues and other monies not specifically allocable to other funds and which may be used for general purposes of the District. In practice, this fund is used to finance reimbursable works and, since 1990, to pay for capital costs incurred under contracts with the Imperial Irrigation District (IID) and others for specified water conservation projects.

Notes to Financial Statements
March 31, 1999

## • Water Revenue Fund (Fund No. 1002)

This fund was established in 1975. Receipts from water sales and standby charges are deposited in this fund and are transferred to various other funds in accordance with revenue bonds and other Board resolutions to pay in order of priority:

- Operation and maintenance expenditures
- Debt service on outstanding revenue bonds and commercial paper
- Water Standby Charge Fund
- Any other obligations which are charges, liens or encumbrances upon operating revenues.

Monies remaining at the end of each month, after the foregoing transfers, are transferred to the Revenue Remainder Fund.

## • Operations and Maintenance Fund (Fund No. 1003)

This fund was established in 1975. This fund is used to pay all operation and maintenance expenditures, including State Water Contract operation, maintenance, power and replacement charges. The revenue bond resolutions require that, at the beginning of each month, monies equal to estimated operation and maintenance expenditures for that month and the succeeding month be set aside in these funds, and such amounts represent the minimum fund balance requirements specified in Section 5201(f) of the Administrative Code.

## • Revenue Remainder Funds (Funds No. 1004 and No. 1006)

These funds were established in 1975. Monies remaining in the Water Revenue Fund at month-end, after meeting the priority expenditures set forth in the bond resolutions, are transferred to these funds and may be used for any lawful purpose by the District. As specified by Section 5202(a) of the Administrative Code, the minimum balance to be held in the Revenue Remainder Fund as of June 30 of each year shall be equal to the portion of fixed costs of the District estimated to be recovered by water sales revenues for the eighteen months beginning with the immediately succeeding July. Such funds are to be used in the event that revenues are insufficient to pay the costs of the District. Amounts remaining in the Revenue Remainder Fund and Pay-As-You-Go Fund collectively on June 30 of each year after meeting the requirements set forth in Section 5202(a) and (b) shall be transferred to the Water Rate Stabilization Fund and to the extent required under Section 5202(d), to the Water Treatment Surcharge Stabilization Fund.

## • Water Standby Charge Fund (Fund No. 1005)

This fund was established in 1992. Revenues attributable to water standby charges are transferred to this fund, which is treated as an operating fund for financial reporting purposes. Monies in this fund are used exclusively for the purpose for which the water standby charge was imposed.

Notes to Financial Statements

March 31, 1999

## • Water Transfer Fund (Fund No. 1007)

This fund was established in 1995. This fund is used for the purpose of purchasing water through transfers or similar arrangements and for the costs of filling the Eastside Reservoir Project. Any amounts remaining on July 1, 2004 shall be transferred to the Water Rate Stabilization Fund.

## (b) Debt Service Funds

## Waterworks Revenue Bond Interest and Principal Fund (Fund No. 2001)

This fund was established in 1975. This fund is used to pay the debt service on Prior Lien Waterworks Revenue Bonds of the District. The revenue bond resolutions require setting aside in this fund each month 1/6 of the semiannual interest payments and 1/12 of the annual principal payment next coming due. Such amounts represent the minimum fund balance requirements specified in Section 5201(b) of the Administrative Code.

## Optional Revenue Bond Redemption Fund (Fund No. 2006)

This fund was established in 1985; amended in 1993. This fund is used for the purpose of redeeming untendered refunded revenue bonds. In accordance with the refunding revenue bond resolutions, the District maintains in this fund amounts sufficient to retire the called bonds.

## • Water Revenue Bond Service Fund (Fund No. 2009)

This fund was established in 1991. This fund is used to pay debt service on subordinate water revenue bonds after payment of Prior Lien Waterworks Revenue Bonds, including reimbursement of any payments made by providers of credit as liquidity enhancement for the bonds.

# • Water Revenue Refunding Bonds, 1993 Series A Interest and Principal Fund (Fund No. 2010)

This fund was established in 1993. This fund is used to pay debt service on the subordinate water revenue refunding bonds after the payment of debt service on Prior Lien Waterworks Revenue Bonds.

# • Water Revenue Refunding Bonds, 1993 Series B Interest and Principal Fund (Fund No. 2011)

This fund was established in 1993. This fund is used to pay debt service on the subordinate water revenue refunding bonds after payment of Prior Lien Revenue Bonds.

#### Water Revenue Bonds, 1995 Series A Interest and Principal Fund (Fund No. 2012)

This fund was established in 1995. This fund is used to pay the debt service on the subordinate water revenue bonds after the payment of debt service on Prior Lien Revenue Bonds.

Notes to Financial Statements
March 31, 1999

• Water Revenue Refunding Bonds, 1996 Series B Interest and Principal Fund (Fund No. 2013)

This fund was established in 1996. This fund is used to pay the debt service on the subordinate water revenue refunding bonds after the payment of debt service on Prior Lien Revenue Bonds.

• Water Revenue Refunding Bonds, 1996 Series A Interest and Principal Fund (Fund No. 2014)

This fund was established in 1996. This fund is used to pay the debt service on the subordinate water revenue refunding bonds after the payment of debt service on Prior Lien Revenue Bonds.

• Water Revenue Bonds, 1996 Series C Interest and Principal Fund (Fund No. 2015)

This fund was established in 1996. This fund is used to pay the debt service on the subordinate water revenue bonds after the payment of debt service on Prior Lien Revenue Bonds.

 Water Revenue Bonds, 1997 Authorization, Series A Interest and Principal Fund (Fund No. 2016)

This fund was established in 1997. This fund is used to pay the debt service on the subordinate water revenue bonds after the payment of debt service on Prior Lien Revenue Bonds.

• Water Revenue Bonds, 1997 Authorization, Series B Interest and Principal Fund (Fund No. 2017)

This fund was established in 1998. This fund is used to pay the debt service on the subordinate water revenue bonds after the payment of debt service on Prior Lien Revenue Bonds.

• Water Revenue Bonds, 1997 Authorization, Series C Interest and Principal Fund (Fund No. 2018)

This fund was established in 1998. This fund is used to pay the debt service on the subordinate water revenue bonds after the payment of debt service on Prior Lien Revenue Bonds.

 Water Revenue Refunding Bonds, 1998 Series A Interest and Principal Fund (Fund No. 2019)

This fund was established in 1998. The fund is used to pay debt service on these water revenue bonds.

Waterworks Revenue Bond Reserve Fund (Fund No. 2501)

This fund was established in 1975. The revenue bond resolutions require the District to maintain a fund balance at least equal to 100% of the combined maximum annual debt service on all outstanding revenue bonds to the extent that such debt service does not exceed \$10 million and 50% of the excess of such debt service over \$10 million. This amount represents the minimum fund balance requirement specified in Section 5201(b) of the Administrative Code.

Notes to Financial Statements

March 31, 1999

## Water Revenue Refunding Bonds, 1996 Series B Reserve Fund (Fund No. 2505)

This fund was established in 1996. Proceeds from the sale of these subordinate bonds, in an amount necessary to maintain the Bond Reserve Requirement of fifty percent (50%) of the maximum annual debt service, were deposited into this fund.

## Water Revenue Bonds, 1997 Authorization, Series B Reserve Fund (Fund No. 2507)

This fund was established in 1998. The revenue bond resolutions require the District to maintain a fund balance equal to \$1 million.

## • Water Revenue Bonds, 1997 Authorization, Series C Reserve Fund (Fund No. 2508)

This fund was established in 1998. The revenue bond resolutions require the District to maintain a fund balance equal to \$1 million.

## • Water Revenue Refunding Bonds, 1998 Series A Reserve Fund (Fund No. 2509)

This fund was established in 1998. Proceeds from the sale of these revenue bonds in an amount equal to the Bond Reserve Requirement of \$15,000,000 were deposited and are required to be maintained in this fund.

## • 1931 General Obligation Bond Interest and Redemption Fund (Fund No. 3001)

This fund was established in 1932. This fund is used for the payment of principal and interest on the 1931 general obligation bonds of the District from ad valorem property tax revenues. Section 5201(a) of the Administrative Code requires maintenance of monies at each September 30 equal to 18 months' debt service, less revenues anticipated to be derived from the next succeeding tax levy specifically for such debt service.

## 1966 General Obligation Bond Interest and Principal Fund (Fund No. 3002)

This fund was established in 1967. This fund is used to pay the debt service on the District's 1966 authorization general obligation bonds from ad valorem property taxes. Section 5201(a) of the Administrative Code requires maintenance of monies at each September 30 equal to 18 months' debt service, less revenues anticipated to be derived from the next succeeding tax levy specifically for such debt service.

## • Optional General Obligation Bond Redemption Fund (Fund No. 3006)

This fund was established in 1980; amended in 1993. This fund is used for the purpose of redeeming untendered refunded general obligation bonds. The District, in accordance with its refunding bond resolutions, must maintain in this fund amounts sufficient to retire the called bonds.
