LEGISLATIVE COUNSEL'S DIGEST

SB 60, Hayden. Metropolitan Water District of Southern California.

(1) The Metropolitan Water District Act authorizes the formation of metropolitan water districts and specifies the powers and purposes of a district.

This bill would require the Metropolitan Water District of Southern California to place increased emphasis on sustainable, environmentally sound, and cost-effective water conservation, recycling, and groundwater storage and replenishment measures, as prescribed, and, commencing February 1, 2001, to prepare and submit to the Legislature a prescribed annual report relating to water conservation. The bill would make related legislative findings and declarations.

The bill would require the district, in cooperation with specified entities, to participate in considering programs of groundwater recharge and replenishment, watershed management, habitat restoration, and environmentally compatible community development utilizing the resource potential of the Los Angeles River, the San Gabriel River, or other southern California rivers, including stormwater runoff from these rivers.

The bill would prohibit the district, and its member public agencies, from expending any public money for contracting with any private entity or person to undertake research or investigations with regard to the personal backgrounds or the statements of economic interest of, or the campaign contributions made to, elected officials who vote on public policies affecting the district, or advocacy groups or interested parties who may have matters pending before the board of the district or its member public agencies.

The bill would require the district to establish and operate an Office of Ethics and to adopt rules relating to internal disclosure, lobbying, conflicts of interest, contracts, campaign contributions, and ethics for application to its board members, officers, and employees, as prescribed. The rules would be required to address certain matters

and would be required, for any association of individuals or entities that includes board members, officers, or employees of the district, or of a member public agency, which association is known by a name other than the Metropolitan Water District of Southern California or the name of a member public agency of the district, to prohibit any association structure or identification that is likely to mislead the public as to the association's true identity, its source of funding, or its purpose. The bill would require the office to adopt those rules for approval by the board of directors, to educate the board, staff, and contractors concerning those rules, and to investigate complaints concerning the violation of those rules. The bill would require the office to propose, and the board to adopt, a schedule of penalties for violations of those rules by board members, officers, staff, or contractors. The bill would prescribe related matters.

By imposing additional duties on the district, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Section 126.5 is added to the Metropolitan Water District Act (Chapter 209 of the Statutes of 1969), to read:

(g) Nothing in this section prohibits the Metropolitan Water District of Southern California, a member public agency of that district, or a board member, officer, or employee of the Metropolitan Water District of Southern California or of a member public agency of the district, from participating in, or providing funding in a clearly identifiable way for, an association formed for the purpose of

undertaking legitimate activities, including, but not limited to, advocating on behalf of that association before a local agency, the Legislature, or the United States Congress.

(d) The district shall invite to the hearings knowledgeable persons from the fields of water conservation and sustainability, and shall consider factors of availability, water quality, regional self-sufficiency, benefits for species and environment, the totality of life-cycle costs, including avoided costs, and short- and long-term employment and economic benefits.

(e) On or before February 1, 2001, and on or before each February 1 thereafter, the Metropolitan Water District of Southern California shall prepare and submit to the Legislature a report on its progress in achieving the goals of increased emphasis on cost-effective conservation, recycling, and groundwater recharge in accordance with this section, and any recommendations for actions with regard to policy or budget matters to facilitate the achievement of those goals.
