Subject

Property Taxes on Specific Redevelopment Projects in the Counties of Los Angeles, San Bernardino and San Diego.

Description

Existing provisions in the Community Redevelopment Law (CRL) permit redevelopment agencies to raise revenue through a procedure known as tax increment financing. This is accomplished by the adoption of a redevelopment plan containing a provision which limits various taxing agencies overlying the area of the redevelopment project to whatever revenue may be raised by their tax rate applied to a frozen assessed valuation on project property. In theory, but for the redevelopment project, the assessed valuation of the blighted area encompassed by the redevelopment project, would diminish or at best remain the same. Accordingly, any increase in assessed valuation resulting from the redevelopment project can be equitably allocated to the redevelopment agency for the repayment of debt incurred by the agency for the redevelopment of the area.

Under the provisions of CRL Section 33670, the various overlying taxing agencies receive the tax revenue levied on the frozen assessed valuation and the redevelopment agency receives any additional tax revenue attributable to an increase in assessed value over the base year. Taxing agencies however may adopt a resolution (prior to the adoption of the redevelopment plan) to elect to be allocated that portion of the tax revenue on the incremental assessed valuation attributable to increases in the taxing agency's tax rate occurring after the base year.

Policy

To comply with Section 33670 of the Community Redevelopment Law.
