**44291** At 10:39 a.m., the Chair called a public hearing to receive comments on the proposed standby charge for Annexation No. 68 to Calleguas Municipal Water District.

No members of the public responded; and after tabulation of the ballots was completed, and with no protests filed, the Chair closed the public hearing at 10:40 a.m.

**44292** In accordance with Senate Bill 1885, the Metropolitan Board was downsized to 37 members from 51 effective January 1, 2001. Chairman Pace thanked Directors Barker, Borenstein, Forbes, Freeman, Koopman, Kosmont, Krieger, McMurray, Moret, Royce, Tinker, Turner, Treviño, and Witt for their significant contributions to the success of the Board. With the aid of former Board Chairman E. **44295** Senator Richard Polanco administered the Oath of Office to the newly recognized 37-member Board of the Metropolitan Water District.

**44297** At 11:17 a.m., the Chair called a recess. The Meeting was again called to order at 11:24 a.m.

**44298** There being no objection, the Chair ordered the reading of the Minutes of the Meeting held December 12, 2000, dispensed with, a copy having been mailed to each Director.

Director Hansen moved, seconded by Director Stanton and carried, approving the foregoing Minutes as mailed.

Director Blake requested to be recorded as abstaining.

**44299** Chairman Pace reported that a large group of Directors and himself attended the Colorado River Water Users Association annual meeting in Las Vegas on December 13-15. At this meeting

Secretary of the Interior Babbitt reiterated his themes of last year of the desirability of resolving water controversies through stakeholder consensus, and the importance of conservation and consensual water transfers and similar transactions. Secretary Babbitt complimented California on its impressive progress toward the 4.4 goal and the advancement of that when San Diego and Metropolitan reached an agreement that will permit the transferred water to be delivered to San Diego via an exchange agreement. He also reiterated his preference for the Basin States to come to an agreement on the surplus guidelines.

Chairman Pace acknowledged four Directors who contributed to the success of the Board during the past year, and who have been Vice Chairs during his first tenure as Chairman of the Board--Directors Timothy F. Brick, Henry S. Barbosa, Helen Z. Hansen, and Clayton A. Record, Jr.

**44300** Chairman Pace reported that he is in the process of reorganizing the committee structure and will be making new committee appointments. This matter will be considered at a Special Board Meeting scheduled for January 16, 2001. A letter will be sent to the Board outlining the details.

**44301** Director Blake moved, seconded by Director Edwards and carried, approving the recommendation of the Executive Committee that (1) the Board rate the performance of the General Manager in his first year as "outstanding", (2) the committee determined the General Manager performed at an outstanding level and has earned the full support of the Board, and (3) the General Manager be awarded a pay-for-performance payment of \$35,000, as set forth in the letter signed by the Chairman of the Board dated December 28, 2000.

**44302** Regarding the Colorado River, Bay-Delta and CALFED matters, the summary of District activities, and his second quarter report on his Business Plan, General Manager Gastelum referred to his monthly activity report for December, signed January 3, 2001, which was distributed earlier.

**44303** General Counsel Walston referred to his activity report dated December 29, 2000, which was distributed earlier. Mr. Walston reported that in the Planning and Conservation

League, et al. v. California Department of Water Resources, et al. (the Monterey Amendment case), the case is now before the trial court and the court will decide whether to stay the entire Monterey agreement while the Department of Water Resources goes forward with its preparation of the EIR. Metropolitan has now appeared in the case and filed an answer for full participation and intend to become actively involved in the prosecution of the case from this point forward.

In Metropolitan v. All Interested Persons (the wheeling case), Mr. Walston stated a letter was sent to the Board indicating that Metropolitan has dismissed the remaining parts of the case relating to the fair and reasonable use issues, and basically the case is now resolved. However, he expects these issues may come up again when a new rate structure is developed.

In the CALFED litigation, Mr. Walston reported that a motion to dismiss was filed by the State of California in the federal case, which was granted, so that case was dismissed against the State. However, the California Farm Bureau has now filed a new amended complaint; and the State has indicated it will also file a motion to dismiss that complaint. Metropolitan's Board has authorized intervention in this litigation, but has not done so yet pending a decision to see if the case is still going forward, and whether the State is to be dismissed or not.

General Counsel Walston reported that in the Solid Waste Agency of Northern Cook County v. U.S. Army Corps of Engineers case, the U.S. Supreme Court has issued its decision by a 5-4 margin that the Corps of Engineers does not have jurisdiction to regulate wetlands or other ephemeral bodies of water that are not navigable. The Clean Water Act specifically provides that the Corps' jurisdiction is limited to navigable waters. The Corps had asserted the argument that it had authority under the "migratory bird rule" to regulate non-navigable waters. The "migratory bird rule" stated in effect that wherever a migratory bird can get to, those waters are within the Corps' jurisdiction under the Clean Water Act. The Court rejected that argument. Metropolitan had filed an amicus brief with the Court asserting the same argument that the Court

upheld. Mr. Walston stated a more detailed analysis would be in his next monthly report.

**44304** The reports of the Standing Committees are as follows:

On behalf of the Executive Committee, Chairman Pace reported that he presented his committee restructure plan that will be discussed at the Special Board Meeting on January 16. The committee approved the implementation of the annual Award of Excellence for fiscal year 1999-2000 and heard reports from the General Manager on his Second Quarter Business Plan and Director Foley on the activities pertaining to the Colorado River Board. Chairman Pace stated in the new committee restructure, he has established a Subcommittee on Rate Structure Implementation, and that subcommittee will be holding a workshop on January 23 (subsequently changed to January 30) to discuss how we plan to move forward and to review the Integrated Resources Plan.

Budget and Finance Committee Chairman Bannister reported the committee approved Agenda Items 9-2 and 9-4, and moved that they be added to the Consent Calendar. The motion was seconded by Director Blake and carried. Committee Chairman Bannister reported the committee deferred Agenda Item 9-3, the bond resolution, to a special meeting of the Budget and Finance Committee on January 16, 2001.

Engineering and Operations Committee Chairman Luddy reported the committee approved Agenda Item 8-1, and tabled Agenda Item 9-1, the Diemer Plant Improvements Program, to the February meeting in order to adequately review the FEIR before taking action.

Legal and Claims Committee Chairman Morse reported the committee approved Agenda Items 9-5 and 9-11 and moved that they be added to the Consent Calendar. Committee Chairman Morse requested that Agenda Item 9-12 be added to the Consent Calendar. The motion was seconded by Director Blake and carried. (Agenda Item 9-11 was subsequently taken off the Consent Calendar).

Communications and Legislation Committee Chairman Peterson reported the committee approved Agenda Item 8-2. A summary report was presented on the report to the California

Legislature on Metropolitan's efforts on water conservation, water recycling, and groundwater storage and replenishment measures pursuant to the Metropolitan Act, Section 130.5. The committee heard a report on Metropolitan's Proposed Federal Action Plan for 2001 which includes salinity programs, water quality initiatives, Diamond Valley Lake recreation, the Moab, Utah mine tailings funding, CALFED governance and funding, Santa Ana River Watershed authorization, Los Angeles and San Gabriel River authorization, Colorado River surplus operating criteria, and relationship building with the new leaders in Congress and the Bush Administration. An update on activities in Sacramento included anticipated issues expected to be addressed by the Governor in his State of the State speech, the electric deregulation meetings taking place, including the Governor's calling of an extraordinary session to deal with the energy crisis.

Water Planning and Resources Committee Chairman Owen reported that at the joint meeting of the Water Planning and Resources and Budget and Finance Committees, reports were given on Agenda Items 9-9 and 9-10. The committees took no action on these items and requested that they be deferred to a meeting/workshop on January 16. The Water Planning and Resources Committee approved Agenda Items 9-8 and 9-11. All other agenda items were deferred due to time constraints.

Director Morris moved, seconded by Director Blake and carried, and the Board approved the Consent Calendar Items, **M.I. 44305** through **M.I. 44311**, as follows:

**RESOLUTION FIXING THE EMPLOYER'S CONTRIBUTION UNDER THE PUBLIC EMPLOYEES' MEDICAL AND HOSPITAL CARE ACT**

1. Set a time for a hearing of the Budget and Finance Committee at which interested parties may present their views regarding the General Manager's recommendation.
