

## • External Affairs April 2006 Activity Report

### Summary

---

In April, the press office received about 30 news media calls and issued six press releases concerning the AFSCME contract vote, the new advertising campaign, the wildflower trail at Diamond Valley Lake, an Australian company setting up an event similar to Solar Cup, a public hearing for the draft environmental impact report on Lake Perris and a smart sprinkler controller exchange program. Stories about reduced water use in Southern California appeared in the Los Angeles Daily News and on Los Angeles' CBS-TV. The education unit conducted 13 inspection trips reaching 520 community members, provided in-service training to 52 teachers and DVL field trips for 292 students. There were more than 15 presentations on various topics to the public or legislative offices by staff. The district's Web sites received 73,787 hits during the same time.

### Detailed Report

---

#### Initiatives

##### Infrastructure

After the deadline expired for the Legislature and the Governor to place an infrastructure bond on the June ballot, the two groups took a brief break before resuming discussions regarding a potential revised package of infrastructure funding for the November ballot.

Some close to the bond negotiations said legislators may embrace a separate \$5.4 billion water bond for the ballot via the initiative process. This proposed bond – known as the "Caves bond" – contains spending for projects sought by water agencies as well as habitat restoration, conservation efforts and funding for state parks.

Separately, in an effort to urge the Administration and legislative leaders to reconsider revisiting a water component in its package, the Association of California Water Agencies is drafting water-related bond language. Metropolitan staff has participated in this effort, with an emphasis on suggesting funding for Delta emergency preparedness and response funding.

##### Bay-Delta

San Francisco's Public Broadcasting Service station KQED aired Metropolitan's Straight From The Tap's one-hour special episode on the California Bay-Delta on April 22. The program reaches 80 percent of the Bay-Area households.

##### Education Outreach

Metropolitan's Solar Cup program (scheduled for May 19-21) is now the largest solar boat competition in the nation and has been noticed halfway around the globe. The Australian subsidiary of electronics firm Roland DG Corp. is launching a similar program and invited Metropolitan's Solar Cup manager to Sydney to help organize the November 2006 Australian International Solar Boat Challenge event at the Sydney Olympic Regatta Centre in Penrith. Tim Levy, the Australian program director, said he discovered Metropolitan's Solar Cup program on the Internet, where he viewed video, photos, rules and other materials at Metropolitan's Web site, [www.mwdh2o.com](http://www.mwdh2o.com).

Education staff co-hosted the bi-annual Department of Water Resources Water Education Advisory Committee meeting at DVL with both Eastern MWD and Elsinore Valley Municipal Water District. Twenty-five water educators from agencies throughout California visited Eastern's wetlands area and classroom, University of California-Riverside for a presentation by one of the World Water Forum college teams and the Center for Water Education facility for a tour with the center's executive director, Darcy Burke.

Date of Report: April 25, 2006

## Board Report (External Affairs April 2006 Activity Report)

The “Water is Life” Calendar Student Art Exhibit moves to the City of Corona, Walnut Valley Water District and Rancho California Water District in May.

### Community Outreach

Community Outreach staff participated in meetings with Western MWD, Eastern MWD, Black and Veatch and Farmer Boys franchise regarding Perris Valley Pipeline construction on April 17. Staff also participated in the Lake Skinner emergency response plan drill and meeting with San Diego County Water Authority, Eastern MWD, Western MWD and retail agencies on April 25.

A new DVD has been produced that provides an overview of Metropolitan for use with new employee orientation, directors’ tours, visiting guests and, for those requesting more information about the district and its initiatives.

### California Friendly™

Metropolitan’s spring advertising campaign began on Monday, April 10. The campaign highlights the latest in water conservation technology and tells Southern Californians that they can cash in on rebates from local water agencies for devices such as dual-flush toilets, smart sprinkler controllers and high-efficiency clothes washers. The campaign features 30-second television commercials, 60-second radio spots and full-page print advertisements in the several magazines, including Better Homes & Gardens (Southern California edition); Time Magazine (Los Angeles edition); Sunset (Southern California edition); Newsweek (Los Angeles edition); California Landscaping and Garden Compass.

Director Bill Wright presented a City Makeover grant check to the Friends of Madrona Marsh for its native plant demonstration garden. The April 15 dedication event included a short program and tour of the garden.

### Legislative Outreach

#### Washington

Reps. Richard Pombo (R-Stockton) and George Radanovich (R-Fresno) held a hearing on April 6 in Washington, D.C., on Delta vulnerabilities and the levee system in California. Auburn Dam became the focus of that hearing. Rep. John T. (Cal) Doolittle (R-Roseville) is pursuing a feasibility study in the 2007 spending bill based on the 1965 authorization for a multi-purpose dam at Auburn. The Bureau of Reclamation is undertaking a \$1 million study to update the costs for evaluating the feasibility of Auburn Dam. This study may take five years and \$20 million or more to complete.

#### Sacramento

While the Legislature is in session, detailed information about pending legislation is included in a legislative matrix (attached).

At the request of the Long Beach Water Department, Sen. Alan Lowenthal (D-Long Beach) has amended SB 1242 as an effort to improve integrated regional water management planning – a concept originally created by the Integrated Regional Water Management Planning Act of 2002.

AB 1881 (Laird, D-Monterey) is the vehicle for recommendations from last year's AB 2717 task force – as coordinated by the California Urban Water Conservation Council. According to the bill author's office, stakeholder meetings will be held within the next few weeks to discuss the current language of the measure as well as draft language reflecting additional task force recommendations. As an active participant of the AB 2717 task force, Metropolitan is supportive of the author's efforts and will continue to participate in discussions as it moves through the Legislature.

### Regional

On April 6, Metropolitan officials, including Director Bill Wright joined the Torrance Area Chamber of Commerce in honoring Torrance Mayor Dan Walker at their annual State of the City Luncheon. During the event, Metropolitan and Director Wright personally thanked the Mr. Walker for his eight years as Mayor. During the Mayor’s remarks he highlighted the achievements by city staff on improving and addressing the current and future water needs of the city.

## Board Report (External Affairs April 2006 Activity Report)

On April 13, Metropolitan hosted a community leaders breakfast briefing with state Sen. Bob Dutton (R-Rancho Cucamonga) and Assemblyman Bill Emmerson (R-Rancho Cucamonga). The audience represented city and county government, education, and the private and public sectors of business. Director Gene Koopman emceed the program, which provided an opportunity for the legislators to give a Sacramento report and General Manager Jeff Kightlinger to speak to the audience about Metropolitan's water resource portfolio. The legislators and Mr. Kightlinger fielded several questions from the audience regarding the Delta, desalination, local investment, and the Governor's strategic growth plan.

Also on April 13, Metropolitan was the main sponsor for the Montebello Chamber of Commerce 2006 Legislative Luncheon. This event featured a panel presentation that included Rep. Grace Napolitano (D-Norwalk), Assemblyman Ron Calderon (D-Montebello) and Montebello City Mayor Bob Bagwell. The questions that the congresswoman and assemblyman answered included actions that need to be taken to ensure water reliability and their opinions on various bond initiatives that would address the statewide infrastructure problems including water. Metropolitan's guests included directors Phil Pace and Robert Apodaca.

Metropolitan also hosted a community leaders breakfast briefing with state Sen. Dick Ackerman (R-Brea) on April 21. Director Larry Dick emceed the program, several other Metropolitan directors were in attendance, and more than one-third of the audience was city council members. General Manager Kightlinger also spoke to this group on Metropolitan's water resource portfolio.

On April 24 and 25, members of the Legislative Services team traveled with the United Chambers of Commerce of the San Fernando Valley, the South Bay Area Chambers of Commerce (SBACC) and the Montebello Chamber of Commerce to attend the California Chamber's Annual Business Legislative Summit in Sacramento where more than 3,000 business leaders throughout the state joined to discuss key issues impacting business. Metropolitan co-hosted a legislative reception for SBACC members and their legislative delegation, which included Interim Deputy General Manager Kathy Cole.

On April 27th, Metropolitan sponsored a table at the Central City Association's Twelfth Annual Treasures of LA Luncheon at the Westin Bonaventure Hotel in downtown Los Angeles, where more than 1,500 business leaders and elected officials attended to honor ten individuals or companies that have made significant contributions to the city of Los Angeles. Director John Murray, Jr. and Chief Administrative Officer Gilbert Ivey, both of whom sit on the CCA board, and Director Jesus Quiñonez represented Metropolitan.

MWD State Legislative Matrix

Bill Author	Amended Date; Location	Title - Summary	MWD Position	Effect on MWD
AB 342 Baca (D)	ASSEMBLY (TWO-YEAR BILL)	<b>Perchlorate Fee</b> - Declares the intent of the Legislature to enact legislation that would authorize the Department of Toxic Substances Control to assess a fee on products that contain perchlorate and to expand those funds to treat drinking water wells contaminated with perchlorate.	Watch	Position based on Board-adopted policy principle.
AB 371 Goldberg (D)	8/30/2005; Senate Inactive File	<b>Water Recycling</b> - Seeks to: 1) create incentives in the State Water Resources Control Board's annual fee structure for publicly-owned treatment works; 2) require recycled water producers to provide the state Departments of Transportation and General Services with specified information regarding future availability of recycled water for landscaping 3) require the Department of Water Resources to develop building code standards for recycled water systems; and 4) remove "skull and crossbones" symbol for recycled water.	Support 8/15/2005	As initially introduced, this bill included several additional provisions to improve local agencies' abilities to increase delivery of recycled water. The bill has been pared down to include only non-controversial items. However, it has been made a two-year bill and is intended to serve as a vehicle should the WaterReuse Associate reach consensus on additional provisions.
AB 492 Baca (D)	5/26/2005; Senate Inactive File	<b>Hazardous Materials: Perchlorate/Business Plans</b> - Requires a business that handles perchlorate material to include, as part of its business plan and any updates to the plan, information detailing the manner in which perchlorate waste generated onsite is disposed or otherwise handled.	Watch 5/26/2005	Position based on Board-adopted policy principle.
AB 984 Laird (D)	1/4/2006; Senate Natural Resources and Water Committee	<b>Tamarisk Plant Control</b> - Authorizes a plan to control or eradicate tamarisk plants in the Colorado River Watershed. Requires collaboration with affected water agencies and other affected entities.	Support 1/4/2006	Position based on historical practice. The bill provides State support for removal of invasive species from the Colorado River watershed, which supports both environmental and water conservation goals that are supported by Metropolitan.
AB 1244 Wolk (D)	1/19/2006; Senate Natural Resources and Water Committee (TWO-YEAR BILL)	<b>CALFED Bay-Delta Program</b> - Clarifies the relationship of the California Bay-Delta Authority and its implementing agencies with the federal government with regard to the California Bay-Delta Program and to conform the state act to the federal act, requiring state agencies to cooperate with federal agencies to meet the goals of the program. Authorizes the Authority to enter into specified cooperative agreements to carry out the program. Authorizes the lead scientist to seek assistance from experts for scientific programs.	Watch 01/19/2006	In light of pending discussions on a long-term finance plan for the CALFED Bay-Delta Program and the pending fiscal/program review undertaken by the Schwarzenegger Administration, the bill was placed on the inactive file until next year to allow both efforts to proceed.

MWD State Legislative Matrix

<p>AB 1245 Wolk (D)</p>	<p>4/21/2005; Senate Natural Resources and Water Committee</p>	<p><b>CALFED Bay-Delta Program</b> - Relates to the California Bay-Delta Authority. Establishes the Environmental Water Account Fund for the benefit of the California Bay-Delta Environmental Water Account Program. Authorizes the money in the fund to be expended for the protection and recovery of fishery resources, the adjustment of the operations of the State Water Project, or the Central Valley Project, or the acquisition of water to supplement the water made available by regulation. Authorizes the acquiring or selling of water.</p>	<p>Support 04/21/2005</p>	<p>The EWA is an important element of Metropolitan's water supply reliability. In light of pending discussions on a long-term finance plan for the CALFED Bay-Delta Program and the pending fiscal/program review undertaken by the Schwarzenegger Administration, the author made the bill a two-year bill.</p>
<p>AB 1290 La Malfa (R)</p>	<p>ASSEMBLY (TWO-YEAR BILL)</p>	<p><b>Water Use Fees</b> - Declares that it is the intent of the Legislature to finance programs that were formerly funded by the imposition of fees for a specified application, registration, petition, request, or proof of claim relating to water use, or a notice to extract groundwater by appropriating funds from the fund that remain available for that purpose.</p>	<p>Oppose</p>	<p>This bill seeks to effectively and completely eliminate funding for the SWRCB's Division of Water Rights. It eliminates the SWRCB's ability to carry out its general regulatory responsibilities and would eliminate funds necessary to process water rights filings and to administer existing water rights.</p>
<p>AB 1341 Environmental Safety &amp; Toxic Material Cmte</p>	<p>8/22/05; Senate Environmental Quality Committee</p>	<p><b>Hazardous Waste: Major Appliance Disposal</b> - Makes a technical, nonsubstantive change to existing law that requires a person who transports, delivers, or sells discarded major appliances to a scrap recycling facility to provide evidence that the person is a certified appliance recycler and that prohibits a scrap recycling facility from accepting a discarded major appliance from any person who is not a certified appliance recycler.</p>	<p>Watch 6/21/2005</p>	<p>Position based on Board-adopted policy principle.</p>
<p>AB 1354 Baca (D)</p>	<p>Assembly (TWO-YEAR BILL)</p>	<p><b>Drinking Water: Perchlorate Levels</b> - Requires the Department of Health Services to establish a maximum drinking water standard contaminant level for perchlorate of 6 parts per billion, to be phased in over a period of two years commencing January 1, 2006.</p>	<p>Oppose</p>	<p>Position based on Board-adopted policy principle. Metropolitan historically opposes legislation that seeks to set MCLs through legislation versus the regulatory process.</p>
<p>AB 1453 Daucher (R)</p>	<p>3/30/2005; ASSEMBLY (TWO-YEAR BILL)</p>	<p><b>Superior Courts: Adjudication of Rights to Produce</b> - Establishes nine water divisions in the superior courts of specified counties. Requires the presiding judge of the superior court of each specified county to assign a water judge to the water division to preside over actions that involve the adjudication of rights to produce groundwater. Provides for the transfer of groundwater actions to those court. Requires the presiding judge to consider the experience in groundwater adjudications of each candidate for assignment as a water judge.</p>	<p>Support in Concept 3/30/2005</p>	<p>Judges with a water law background would provide greater efficiency and expertise in adjudicating and improving the administration of groundwater cases.</p>

MWD State Legislative Matrix

<p>AB 1665 Laird (D)</p>	<p>9/8/2005; Senate Natural Resources and Water Committee</p>	<p><b>Flooding</b> - Renames the Reclamation Board the Central Valley Flood Management Board. Also requires DWR to develop a schedule for mapping flood risk areas in the Sacramento and San Joaquin River drainage areas and directs DWR to prepare a report describing a flood control plan. Further requires each local agency responsible for project flood works O&amp;M to annually submit specified information to the new Board. Counties must identify every parcel of land located in a levee failure inundation zone and provide landowner notice of the flood hazard. Further requires a flood control system status report by 1/1/11 and requires Board to prepare levee failure inundation maps.</p>	<p>Watch 08/15/2005</p>	<p>DWR sponsored bill in response to the Paterno court decision.</p>
<p>AB 2396 Calderon (D)</p>	<p>ASSEMBLY</p>	<p><b>Metropolitan Water Districts</b> - Relates to the Metropolitan Water District Act. Amends the act to change the composition of the board of directors and to provide for the direct election of members of the board by voters residing in the service area of the district.</p>	<p>Oppose</p>	<p>Position based on historical practice.</p>
<p>AB 2397 Calderon (D)</p>	<p>Assembly Public Employees, Retirement and Social Security Committee</p>	<p><b>Metropolitan Water Districts: Service Contracts</b> - Relates to the Metropolitan Water District Act. Prohibits a district from entering into a contract for permanent or temporary services, skilled or unskilled, if such services are of a kind that persons selected through its civil service system could perform adequately and competently.</p>	<p>Oppose</p>	<p>Position based on historical practice.</p>
<p>AB 2951 Goldberg (D)</p>	<p>Assembly Local Government Committee</p>	<p><b>Capital Facilities Fees</b> - Requires a public agency that provides public utility services to only charge a public agency rates, charges, surcharges or fees that are determined on the basis of the same objective criteria and methodology applicable to comparable nonpublic users. Provides commencement requirements for any judicial action or proceeding brought by a public agency that seeks a refund or challenges the validity, of a fee, rate, charge, or surcharge or increase, or any action to validate an ordinance.</p>	<p>Watch 4/17/2006</p>	<p>Could impact the annual reimposition of Metropolitan's capacity charge.</p>

MWD State Legislative Matrix

<p>ACA 13 Harman (R)</p>	<p>4/21/2005; Assembly Local Government Committee</p>	<p><b>Local Government: Assessments and Fees or Charges -</b> Proposes a Constitutional Amendment that excludes a fee or charge related to flood control, stormwater drainage or surface water drainage from restrictions on the imposition or increase of a property-related fee or charge by a city, county or special district.</p>	<p>Watch 4/21/2005</p>	<p>Would exclude any levy for flood control purposes from the Constitutional requirements of Proposition 218, including any levy imposed to finance capital costs or maintenance and operation expenses for flood control. If the Legislature and the voters approved this change to Proposition 218, it would make it easier for local flood control agencies to adopt assessments for flood control purposes since approvals would only be required from their respective boards.</p>
<p>ACR 84 Walters (R)</p>	<p>Assembly Water, Parks and Wildlife Committee</p>	<p><b>Ocean Water Desalination -</b> Memorializes the Legislature's support of the development of ocean water desalination, where economically and environmentally appropriate, as an element of a balanced water supply portfolio to increase available water supply, to meet current and future water demands, and to reduce the level of dependence on imported water supplies.</p>	<p>Support</p>	<p>This resolution is for support of future seawater desalination projects. It could facilitate development of seawater desalination projects by Metropolitan or our member agencies to meet the IRP Update targets for desalination.</p>
<p>SB 31 Florez (D)</p>	<p>SENATE (TWO-YEAR BILL)</p>	<p><b>Water Fees -</b> Revises provisions for making water rights filings with the State Water Resources Control Board. Changes the listing of applications subject to the board's schedule of fees. Denominates the fees as transaction fees. Limits the fees to processing costs. Requires adjustments of individual transaction fees. Requires the annual permit or license fees to be imposed based upon the number of acre-feet of water covered by the permit or license.</p>	<p>Oppose Unless Amended</p>	<p>This bill would not provide adequate funding for the SWRCB Division of Water Rights thus severely impacting the Division's ability to address misuse of water or environmental impacts. Also, the federal CVP's share of fees could be shifted to SWP contractors and other water users.</p>

MWD State Legislative Matrix

<p>SB 113 Machado (D)</p>	<p>4/14/2005; Assembly Water, Parks and Wildlife Committee (TWO-YEAR BILL)</p>	<p><b>California Bay-Delta Authority Act</b> - Relates to existing law which requires the California Bay-Delta Authority to review, approve, and make recommendations regarding certain annual program plans and project expenditures submitted by the implementing agencies based on prescribed criteria. Requires the Authority, in undertaking that review, approval or modification, to consider the extent to which those plans or expenditures are consistent with the beneficiary pays principle.</p>	<p>Oppose 4/14/2005</p>	<p>Seeks to define the CALFED concept of "beneficiary pays." Metropolitan is concerned that the measure's definitions of public and private benefits and its general descriptions of what types of projects would and would not be eligible for public funding would effectively create a burden of proof for using public funds for such purposes as water use efficiency projects. In light of pending discussions on a long-term finance plan for the CALFED Bay-Delta Program and the pending fiscal/program review undertaken by the Schwarzenegger Administration, the bill was made a two-year bill.</p>
<p>SB 187 Soto (D)</p>	<p>6/22/2005; Assembly Environmental Safety and Toxic Materials Committee</p>	<p><b>Drinking Water: Contaminants</b> - Requires OEHHA to revise the perchlorate PHG if 1) "any risk assessment conducted by any state agency in the United States after April 1, 2005" concludes that perchlorate exposure below 6 ppb is a risk to pregnant women, fetuses, infants or other vulnerable sub-populations; or 2) any state agency in the U.S. establishes an MCL lower than 6 ppb. Also requires DHS to revise the perchlorate MCL if the PHG is revised.</p>	<p>Oppose 6/22/2005</p>	<p>Position based on Board-adopted policy principle. Establishes a dangerous precedent in that it gives deference to regulatory agencies outside California. Undercuts OEHHA's authority, requires OEHHA to revise the PHG independent of the quality of the risk assessment conducted by another agency and fails to recognize that a margin of safety is already built into the current PHG.</p>
<p>SB 350 Machado (D)</p>	<p>7/5/2005; Assembly Water, Parks and Wildlife Committee</p>	<p><b>San Joaquin River Restoration and Water Management</b> - Sponsored by the Natural Resources Defense Council and the Central/South Delta Water Agencies, this bill would establish the San Joaquin River Fund to provide grants for "restoration of streamflows and native anadromous fish populations" or "acquisition of cost-effective replacement water supplies and related actions." Appropriates \$9.16 million from Proposition 13 (proceeds from a grant previously awarded to but reverted from the Friant Water Users Authority) and directs the Secretary of Resources to expend funds in roughly equal amounts for grants for restoration and water supply projects.</p>	<p>Watch 7/5/2005</p>	<p>Friant and NRDC have been in an intense court conflict over San Joaquin River restoration since 1988. Metropolitan has an interest in actions taken on the San Joaquin River because such actions could improve source water quality and, potentially, improve the regulatory environment for SWP operations by helping to increase fish populations.</p>

MWD State Legislative Matrix

<p>SB 393 Ortiz (D)</p>	<p>5/10/2005; SENATE (HELD BY COMMITTEE)</p>	<p><b>Special Districts</b> - Requires audits of special purpose districts to be performed in accordance with government auditing standards for financial audits. Requires the governing boards of special districts to conduct legal and ethics orientation sessions that governing board members would be required to attend, if they choose to receive compensation for their activities. Specifies whistle-blower protections for members who make protected disclosures of improper governmental activities.</p>	<p>Oppose 5/10/2005</p>	<p>This bill unfairly singles out special districts and the travel reimbursement restrictions that remain in the measure are too inflexible and may not allow for necessary travel.</p>
<p>SB 866 Kehoe (D)</p>	<p>4/19/2005; SENATE (TWO-YEAR BILL)</p>	<p><b>Water Use Measurement Information</b> - Requires the Department of Water Resources to prepare and submit to the Legislature a report with regard to various matters concerning water use measurement information. Requires the department to conduct a study to determine the cost-effectiveness of more accurate farm-gate measurement and report to the Legislature. Requires the department to develop and implement jointly with the Department of Health Services the use of a coordinated water use reporting database.</p>	<p>Support</p>	<p>Creates a single point of information for agricultural and urban water uses and would help Metropolitan develop better water supply strategies and help determine the effectiveness of existing water measurement practices in the state. In light of pending discussions on a long-term finance plan for the CALFED Bay-Delta Program and the pending fiscal/program review undertaken by the Schwarzenegger Administration, the bill was made a two-year bill.</p>
<p>SB 977 Ashburn (R)</p>	<p>SENATE (TWO-YEAR BILL)</p>	<p><b>Hazardous Substances: Perchlorate</b> - Contains provisions governing perchlorate contamination prevention, defines ""perchlorate"" to mean all perchlorate-containing compounds, and ""perchlorate material"" to mean perchlorate and all perchlorate-containing waste. Specifies that ""perchlorate"" does not include perchlorate located in unused military munitions.</p>	<p>Watch</p>	<p>Position based on Board-adopted policy principle.</p>
<p>SB 978 Ashburn (R)</p>	<p>SENATE (TWO-YEAR BILL)</p>	<p><b>Water Use: Military Land and Housing Areas</b> - Requires an urban water supplier to install water meters on all municipal and industrial water service connections that are located in its service area. Requires an urban water supplier to charge each customer that has a service connection for which a water meter has been installed, based on the actual volume of deliveries, as measured by a water meter.</p>	<p>Oppose Unless Amended</p>	<p>Position based on Board-adopted policy principle. To the extent that Metropolitan's water serves military bases, this bill impedes efforts to implement water-use efficiency across all classes of customers in an equitable manner.</p>

MWD State Legislative Matrix

<p>SB 1506 Margett (R)</p>	<p>3/30/2006; Senate Appropriations Committee</p>	<p><b>Department of Water Resources: Water Projects: Energy -</b> Exempts, for purposes of the State Water Project, certain contracts and agreements relating to the purchase and sale of electric power or natural gas entered into by the Department of Water Resources for those purposes. Exempts those contracts from specified state contracting law, if the department determines that the application of those contracting laws is detrimental to the purposes of the State Water Project.</p>	<p>Support</p>	<p>This bill would benefit Metropolitan, which pays the vast majority of SWP power costs, by granting DWR more flexibility in its power and natural gas procurement, and by expediting DWR's ability to enter into such agreements.</p>
<p>SB 1640 Kuehl (D)</p>	<p>4/19/2006; Senate Natural Resources and Water Committee</p>	<p><b>Water -</b> Relates to a report of hydrologic conditions of water project facilities to each contractor, water diversions covered by a permit or license for small domestic or livestock stockpond uses, civil liability for failing to file a statement for a diversion or use, the California Water Plan, and coordination of an urban water management plan with utilities that provide electric or gas service.</p>	<p>Support</p>	<p>Position based on support for SB 820. This bill promotes better planning by state and local planning agencies and will provide a heightened level of reliability and certainty to existing and future customers of state, regional and local water purveyors.</p>
