Subject

Express support for SB 103 (Senate Committee on Budget and Fiscal Review) – Budget Act of 2013

Executive Summary

On February 27, 2014, the State Senate and Assembly passed SB 103, an amendment to the Budget Act of 2013 ([Attachment 1](#)). SB 103 is part of a drought relief package that Governor Jerry Brown, President Pro Tem Darrell Steinberg (D-Sacramento), and Assembly Speaker John Pérez (D-Los Angeles) announced at a press conference in mid-February. The drought relief package consists of SB 103 and SB 104 (Board Letter 8-9). As urgency measures, both laws will become effective immediately upon signature by the governor.

SB 103 appropriates \$214.9 million from voter-approved bonds (Propositions 84 and 1E), the Greenhouse Gas Reduction Fund, General Fund and Special Funds to provide financial assistance to drought-stricken communities for unemployment, housing, clean water, water efficiency projects, flood control projects, groundwater monitoring and urgent fish and stream conservation. A similar bill was introduced in the Assembly, AB 79 by the Committee on Budget, although SB 103 was the bill considered and adopted by the Senate and Assembly on February 27. As stated in the companion Board Letter 8-9, SB 103 would only become operative if SB 104 is also enacted.

Details

For an overview of all the funding provisions in both drought-relief bills, see [Attachment 2](#). The following outlines some of the appropriations that are of particular interest to Metropolitan.

Funding for water and energy efficiency for urban and agricultural communities

Under SB 103, \$30 million from the Greenhouse Gas Reduction Fund, proceeds from the AB 32 cap-and-trade auction, is appropriated to the Department of Water Resources (DWR) to provide a reduction of GHG emissions while advancing water use efficiency at the state and local levels. Of this amount \$20 million is directed for grants for water/energy efficiency upgrades in the urban residential, commercial and institutional sectors. Metropolitan would be eligible to compete for grant funding under this program. In addition, \$10 million of the \$30 million would be appropriated to modify two generating units at DWR's Hyatt-Thermalito complex near Oroville, California. The modifications would improve each unit's generating efficiency approximately 3 percent. The increased energy production from the non-GHG-emitting Hyatt-Thermalito hydroelectric plants will reduce the amount of more expensive market energy DWR would have to purchase from GHG-emitting sources to support the SWP operations, also helping the state meet its GHG reduction targets.

The bill also allocates \$10 million from cap-and-trade auction revenues to the California Department of Food and Agriculture for agricultural water efficiency projects that reduce greenhouse gas emissions.

Additionally, \$1 million from the General Fund is directed to DWR for the Save Our Water Campaign to expand drought-related education and outreach.

Funding for flood management projects, including Delta Flood Emergency Preparedness, Response, and Recovery Project

From Propositions 84 and 1E, \$77 million are appropriated to DWR for flood management projects consistent with the Central Valley Flood Protection Plan that in addition to flood management benefits provide other public benefits including water supply, transient water storage, water quality improvements and ecosystem benefits. Inclusion of “water supply” and “ecosystem” as criteria in selecting levee projects is a positive change.

In addition, \$12 million of these funds would be directed to the Delta Flood Emergency Preparedness, Response and Recovery Program which, among other things, is intended to protect water quality and restore water supply for both Delta and export water users and reduce the recovery time for delivery of California's water supply if impacted by catastrophic flood or seismic events to less than six months.

Funding for State Water Resources Control Board (SWRCB) enforcement and conservation

Out of the \$18 million appropriated to the SWRCB, \$2.5 million from the General Fund are dedicated to drought-related water right enforcement actions including: (1) establishing and enforcing requirements to prevent the waste or unreasonable use of water; (2) establishing and enforcing curtailments in diversion based on unavailability of water under the diverters priority of right; and (3) enforcing terms and conditions of water right permits and licenses. This funding complements the SWRCB's enhanced regulatory and enforcement authority to respond to drought emergencies under SB 104. Those new authorities are summarized in the concurrent board letter.

Funding to mitigate impacts to fish due to extreme drought conditions

SB 103 appropriates \$2.3 million from the General Fund to the California Department of Fish and Wildlife (CDFW) for addressing urgent fish, stream, and conservation activities related to the extreme drought conditions. This could benefit sensitive species that rely on the Delta, such as salmon and steelhead.

Funding for groundwater monitoring

SB 103 accelerates the expenditure of \$1.2 million from the Waste Discharge Permit Fund to the SWRCB for groundwater quality monitoring. Another \$800,000 from the General Fund would accelerate implementation of measures to protect and ensure sustainability of groundwater resources in critically overdrafted basins.

Impacts on Metropolitan

Metropolitan would be eligible to compete for grant funding from the \$20 million appropriated from the GHG Reduction Fund for water use efficiency and GHG reduction projects. In addition, the appropriation of \$10 million toward upgrades at Hyatt and Thermalito will help fund a portion of this project, thereby reducing the cost to State Water Contractors, including Metropolitan, for those capital improvements. In addition, State Water Contractors will continue to benefit in the future with a more energy efficient SWP and reduced energy costs.

The appropriation of \$12 million for the Delta Flood Emergency Preparedness, Response and Recovery Program could help improve the reliability of SWP supplies in the wake of catastrophic Delta levee failures. Furthermore, appropriations for multi-benefit flood control projects in the Central Valley may contribute to more reliable water supplies and ecosystem improvements in the Delta.

Additional funding for SWRCB enforcement of water rights may help protect lawful diversions by more senior water rights holders in times of drought which could protect SWP supplies, water quality in the Delta, and the environment.

Additional funds for CDFW to address urgent fish and stream needs could benefit sensitive species that rely on the Delta. This could help reduce the impacts on SWP supplies from existing regulatory restrictions to protect listed fish in current and future years by reducing stressors on salmon and steelhead populations.

Additional funding for urban and agricultural water use efficiency will help advance multi-benefit projects to help reduce future reliance on imported water supplies and provide relief to communities during this historic drought.

Policy

Minute Item 45390, dated June 2003, adopting a policy principle on statewide water infrastructure financing

Minute Item 45208, dated February 11, 2003, adopting a policy principle on water conservation

Minute Item 46637, dated April 11, 2006, adopting a set of Delta policy principles on long-term sustainability in the Delta

Minute Item 47135, dated June 12, 2007, adopting Metropolitan's Delta Action Plan

California Environmental Quality Act (CEQA)

CEQA determination for Option #1:

The proposed action is not defined as a project under CEQA because the proposed action involves proposals for legislation to be enacted by the state legislature (Section 15378(b)(1) of the State CEQA Guidelines). In addition, where it can be seen with certainty that there is no possibility that the proposed action in question may have a significant effect on the environment, the proposed action is not subject to CEQA (Section 15061(b)(3) of the State CEQA Guidelines).

The CEQA determination is: Determine that the proposed action is not subject to the provisions of CEQA pursuant to Sections 15378(b)(1) and 15061(b)(3) of the State CEQA Guidelines.

CEQA determination for Option #2:

None required

Board Options

Option #1

Adopt the CEQA determination that the proposed action is not subject to CEQA and authorize the General Manager to support SB 103.

Fiscal Impact: Unknown

Business Analysis: If passed, SB 103 would provide funds to improve energy efficiency of the SWP and, in doing so, reduce greenhouse gas emissions and costs to State Water Contractors, including Metropolitan. SB 103 also provides funding that could help with an emergency pathway through the Delta in the wake of levee failures, thus potentially making SWP supplies more reliable. Additional funding for SWRCB water rights enforcement could help protect SWP supplies. Funding for CDFW to address extreme drought impacts on sensitive fish species could help reduce the impacts of regulatory restrictions on SWP operations. Water use efficiency funding in the urban and agricultural sectors will assist with drought response.

Option #2

Take no position on SB 103.

Fiscal Impact: Unknown

Business Analysis: If Metropolitan takes no position, it would be precluded from engaging on negotiations to shape the proposal or advocate for its enactment.

Provisions:

1. (a) No funds appropriated in this item shall be encumbered unless every rule or regulation adopted and every all-county letter issued by the State Department of Social Services that adds to the costs of any program is approved by the Department of Finance as to the availability of funds before it becomes effective. In making the determination as to availability of funds to meet the expenditures of a rule, regulation, or all-county letter that would increase the costs of a program, the Department of Finance shall consider the amount of the proposed increase on an annualized basis, the effect the change would have on the expenditure limitations for the program set forth in this act, the extent to which the rule, regulation, or all-county letter constitutes a deviation from the premises under which the expenditure limitations were prepared, and any additional factors relating to the fiscal integrity of the program or the state's fiscal situation.

- (b) Notwithstanding Sections 28.00 and 28.50, the availability of funds contained in this item for rules, regulations, or all-county letters that add to program costs funded from the General Fund in excess of \$500,000 on an annual basis, including those that are the result of a federal regulation, but excluding those that are (a) specifically required as a result of the enactment of a federal or state law or (b) included in the appropriation made by this act, shall not be approved by the Department of Finance sooner than 30 days after notification in writing to the chairpersons of the committees in each house of the Legislature that consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or sooner than such lesser time after notification as the chairperson of the joint committee, or his or her designee, may in each instance determine.
2. Notwithstanding Chapter 1 (commencing with Section 18000) of Part 6 of Division 9 of the Welfare and Institutions Code, a loan not to exceed \$500,000,000 shall be made available from the General Fund, from funds not otherwise appropriated, to cover the federal share of costs of a program or programs when the federal funds have not been received by this state prior to the usual time for transmitting that federal share to the counties of this state. This loan from the General Fund shall be repaid when the federal share of costs for the program or programs becomes available.
 3. The Department of Finance may authorize the transfer of amounts from this item to Item 5180-001-0001 in order to fund the costs of the administrative hearing process associated with the CalWORKs program.
 4. (a) The Department of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, including, but not limited to, the timing of federal payments, or any rule or regulation adopted and any all-county letter issued as a result of the enactment of a federal or state law, the adoption of a

federal regulation, or a court action, during the 2013–14 fiscal year that are within or in excess of amounts appropriated in this act for that year.

- (b) If the Department of Finance determines that the estimate of expenditures will exceed the expenditures authorized for this item, the department shall so report to the Legislature. At the time the report is made, the amount of the appropriation made in this item shall be increased by the amount of the excess unless and until otherwise provided by law.
5. Nonfederal funds appropriated in this item which have been budgeted to meet the state’s Temporary Assistance for Needy Families maintenance-of-effort requirement established pursuant to the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193) may not be expended in any way that would cause their disqualification as a federally allowable maintenance-of-effort expenditure.
6. In the event of declared disaster and upon county request, the State Department of Social Services may act in the place of any county and assume direct responsibility for the administration of eligibility and grant determination. Upon recommendation of the Director of Social Services, the Department of Finance may authorize the transfer of funds from this item and Item 5180-101-0890, to Items 5180-001-0001 and 5180-001-0890, for this purpose.
7. Pursuant to the Electronic Benefit Transfer (EBT) Act (Chapter 3 (commencing with Section 10065) of Part 1 of Division 9 of the Welfare and Institutions Code) and in accordance with the EBT System regulations (Manual of Policies and Procedures Section 16-401.15), in the event a county fails to reimburse the EBT contractor for settlement of EBT transactions made against the county’s cash assistance programs, the state is required to pay the contractor. The State Department of Social Services may use funds from this item to reimburse the EBT contractor for settlement on behalf of the county. The county shall be re-

quired to reimburse the department for the county’s settlement via direct payment or administrative offset.

- 8. The Department of Finance is authorized to approve expenditures for the California Food Assistance Program in those amounts made necessary by changes in the CalFresh Program Standard Utility Allowance, including those that result from midyear Standard Utility Allowance adjustments requested by the state. If the Department of Finance determines that the estimate of expenditures will exceed the expenditure authority of this item, the department shall so report to the Legislature. At the time the report is made, the amount of the appropriation made in this item shall be increased by the amount of the excess unless and until otherwise provided by law.
- 9. Upon request of the State Department of Social Services, the Department of Finance may increase expenditure authority in this item by up to \$25,300,000 for food assistance programs associated with persons affected by the drought.
