

Chairman's Report

Conservation & Local Resources Committee
Item 2
March 28, 2017

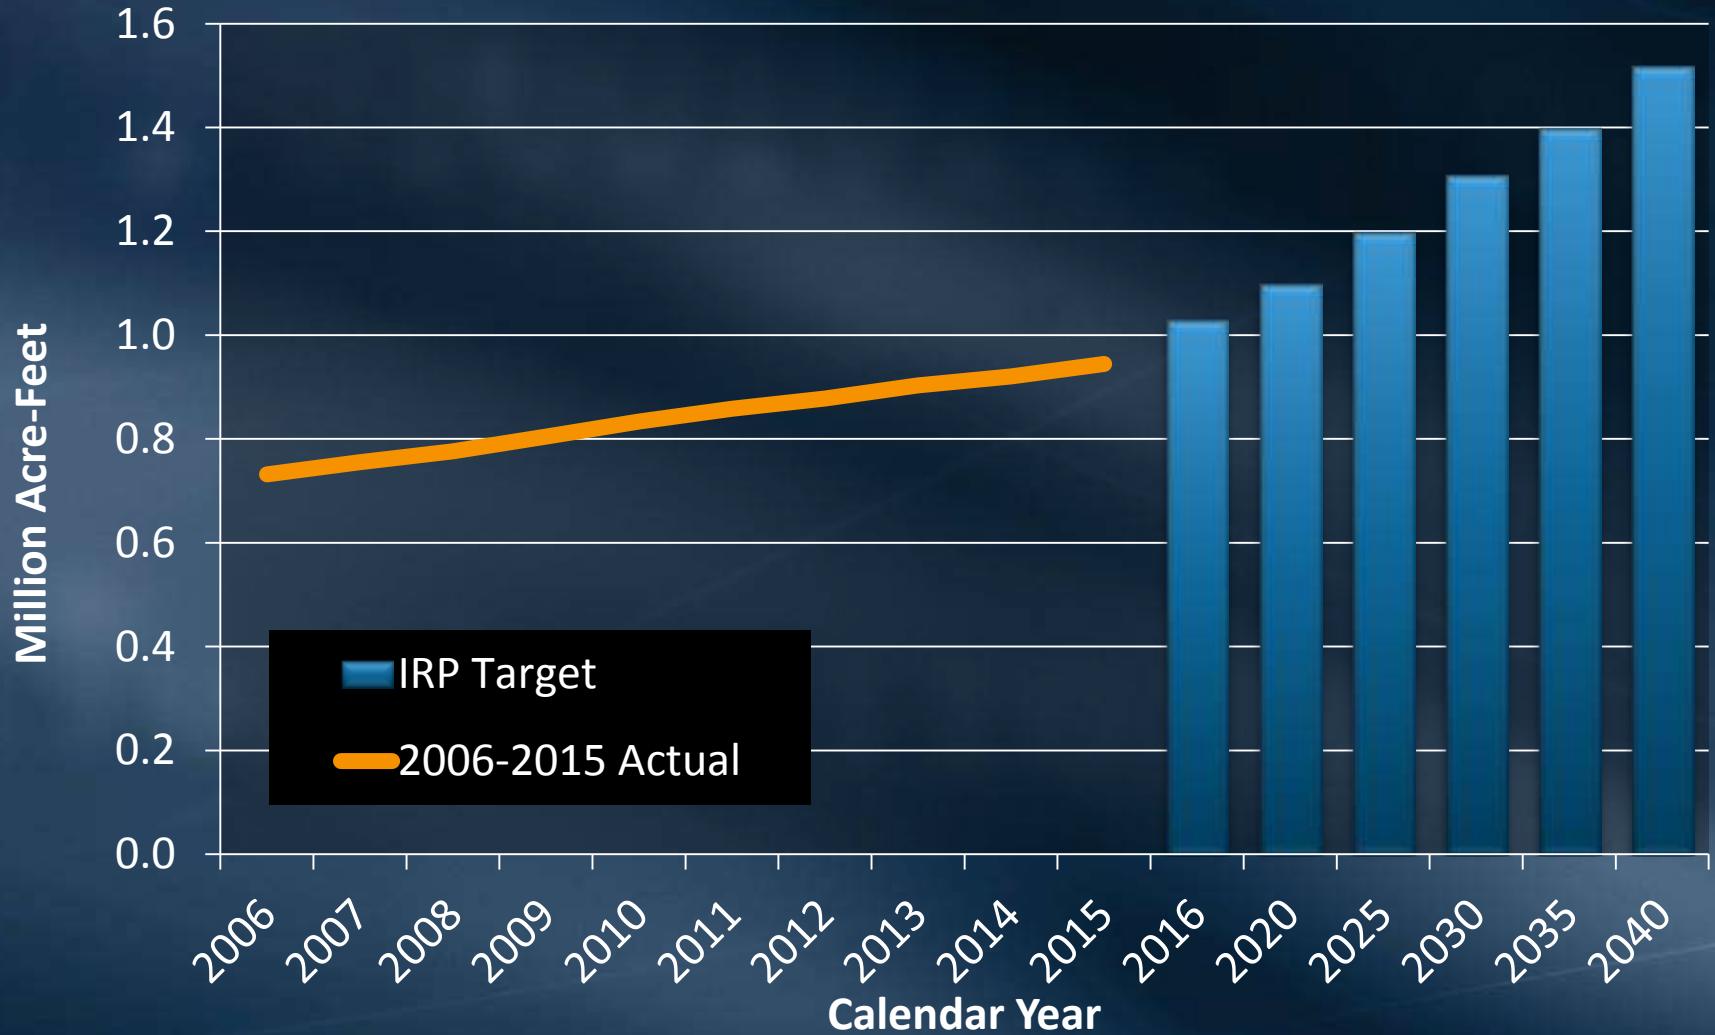

Need For Increased Focus

- 2015 IRP Update calls out regional targets
 - 2040 annual local resource goal: ~2.4 MAF/year
 - 2040 regional conservation goal: ~1.5 MAF/year
- Need to better understand the benefits of conservation and local resource strategies
 - Evaluation of programs
 - Review different approaches to accomplish water use efficiency or local supply production

Local Supply History and IRP Targets

Conservation History and IRP Targets

Opportunity To Hear From Other Agencies, Practitioners, and Leaders

- Member and Local Agency Efforts:
 - Groundwater management and treatment efforts
 - Stormwater capture and infiltration programs
 - Wastewater recycling and reuse
 - Conservation programs/incentives
 - Landscape ordinances and efforts to increase outdoor efficiency
 - Water neutral development
- Other invited guests based on committee feedback

Committee Purview

- Generally: review regional progress toward meeting the IRP conservation and local resource goals and policy options to help ensure success in meeting the goals
- Committee handout
