5/8/2018 Board Meeting

---

**8-13**

**Subject**

---

Adopt CEQA determination and express opposition to AB 3045 (Gallagher, R-Yuba City), regarding State Water Project Commission

**Executive Summary**

---

AB 3045, as amended in the Assembly on April, 25, 2018, (**Attachment 1**) would transfer control of the State Water Project (SWP) from the California Department of Water Resources to a new State Water Project Commission (Commission) under the California Natural Resources Agency (CNRA). The Commission would consist of nine members appointed by the Governor and subject to confirmation by the Senate. This bill requires Commission representation from the upstream watershed, but not the SWP's actual service area.

**Details**

---

**Background**

On February 16, 2018, Assembly Member James Gallagher, who represents the Oroville area, introduced AB 3045 proposing to establish the Division of Safety of Dams (DSOD) within the CNRA. The bill proposed to transfer authority over dams and reservoirs from DWR to the DSOD as a separate entity under the CNRA. AB 3045 was subsequently amended on April, 25, 2018, based on recommendations by the Assembly Water, Parks and Wildlife Committee consultant to strike language related to DSOD, and instead proposed creation of a Commission to oversee the entire SWP. Major provisions of the amended bill include:

- Creation of a nine-member board appointed by the Governor and confirmed by the Senate:
  - Members shall be from different regions of the state, to the extent possible;
  - Three members shall be registered engineers with experience in civil or hydrological engineering, at least one of whom shall have demonstrated experience in risk management, operations and human factors, and dam safety;
  - Two members shall have demonstrated experience in the fields of water rights, water conveyance, or water storage;
  - One member shall be nominated by the Butte County Board of Supervisors;
  - Three public members, one each representing agricultural interests, the environment and municipal water users; and
  - Commissioners would serve four-year terms.
- The Commission may employ an executive officer who shall hire employees necessary to carry out Commission functions;
- The Commission shall administer the SWP, and have full charge and control of construction, operation and maintenance of the SWP; and
- The Commission shall set all rates, charges and revenues associated with the SWP.

**Staff Recommendation**

While Metropolitan generally supports the concept of separating management of the SWP from other functions currently performed by DWR, much more study and coordination are needed before implementing major reforms. AB 3045 proposes sweeping changes in SWP governance without addressing the multitude of complex policy, legal and operational issues that are raised by this legislation. Among other things this bill:

- Fails to address the original purpose of this legislation, which was to bolster dam safety, not just at Lake Oroville, but throughout the State;
- Does not required that the Commission include any representatives from the public water agencies that pay the majority of SWP costs;
- Would transfer only certain duties and powers relevant to the management and operation of the SWP to the Commission, potentially creating a fractured and unworkable governance structure;
- Would require the duties and expertise of DWR's current staff to be split into separate organizations and necessitate hiring additional staff to manage the SWP and non-SWP functions;
- Could delay critical time-sensitive decision-making and adversely impact day-to-day operations of the SWP by imposing an additional and unnecessary layer of bureaucracy;
- Could disrupt major ongoing initiatives such as capital improvement and refurbishment of SWP infrastructure, aqueduct subsidence repairs, and ecosystem improvements;
- Would likely increase costs for both SWP and non-SWP related activities, which would impact both public water agencies and the State as a whole, since costs associated with the latter must be paid from the General Fund;
- Could potentially impact existing water rights, coordinated operations with Federal agencies, and ongoing permitting processes; and
- Fails to provide the new Commission with adequate authority to contract, issue revenue bonds, cooperate with the federal government, acquire/condemn property, or to establish funds and accounts necessary to operate the SWP.

In short, AB 3045 focuses solely on the expertise and geographical representation of the governing body for the proposed Commission without addressing how this Commission would actually function or what benefits, if any, this new governance structure would provide. Accordingly, staff recommends opposing AB 3045 as detrimental to the stability of the SWP and as contrary to a balanced public discourse on options for future SWP governance.

**Policy**

---

Minute Item 30007, October 9, 1973: Until the broader reorganization questions of land use, water resource management, and environmental controls were addressed, Metropolitan's Board found it untimely to support a proposal on separating SWP administration from DWR. The policy statement responds to the 1973 California Water Commission preliminary report on how to change DWR and establish the SWP as a separate state entity.

Minute Item 47135, dated June 12, 2007: Policy Principles on Delta Visioning (Delta Action Plan) regarding: governance of the State Water Project.

Information Board Letter 9-1, dated November 9, 2010: Summarizing Little Hoover Commission recommendations for reorganizing California state water agencies.

## California Environmental Quality Act (CEQA)

---

### CEQA determination for Option #1:

The proposed action is not defined as a project under CEQA because it involves a legislative proposal that does not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment (Public Resources Code Section 21065 and Section 15378(b)(1) of the State CEQA Guidelines).

The CEQA determination is: Determine that the proposed action is not defined as a project under Public Resources Code Section 21065 and State CEQA Guidelines Section 15378(b)(1).

## Board Options

---

### Option #1

Adopt the CEQA determination that the proposed action is not defined as a project under CEQA, and  
 Authorize the General Manager to express opposition to AB 3045.

**Fiscal Impact:** No fiscal impacts to current practice if AB 3045 is not implemented.

**Business Analysis:** Status quo of State Water Project operations if AB 3045 is not implemented.

### Option #2

Take no action.

**Fiscal Impact:** Unknown fiscal impact at this time.

**Business Analysis:** Actions of Commission would determine if there would be cost savings or increases.
