

Water Resource Management Manager's Report

Water Planning and Stewardship Committee
Item 7c
March 11, 2019

Status of Oroville Spillway Funding

- FEMA previously approved reimbursement of \$120 million for emergency response costs
- FEMA determined \$205 million of remaining costs were recoverable (for a total of \$325 million)
 - Includes emergency response, lower spillway, & relocating powerlines
 - DWR will be submitting additional reimbursements for these costs
- FEMA excluded costs for upper gated spillway and emergency spillway
- DWR expected to appeal FEMA decision
