---

Honorable MWD Board,

My name's Sarah Carano and I'm a resident of Los Angeles. I'm writing to you today in the hope that I can urge you to move forward the approval process for the Regional Recycled Water Program (RRWP) by voting YES on Agenda Item #7-3 and #7-4 on November 10th.

As a parent of a young Angeleno, I care deeply about this region's future and it seems we need to rethink how we source water for the region. The RRWP's environmental planning phase is a critical step to make progress on developing a sustainable and local water supply. My understanding is that this project could produce clean water for 1.7 million people, create thousands of good jobs, reduce reliance on imported water, and use much less energy than desalination.

Please make the important decision to move forward on the next steps for the Regional Recycled Water Program today.

Thank you,

Sarah Carano  
3672 Glenfeliz Blvd, Los Angeles, CA 90039
