Sent via email to: dl-boardsupportteam@mwdh2o.com (Board Administrator) Re: Vote YES for Regional Recycled Water Project

To the Honorable Board of Directors of the Metropolitan Water District,

My name is Sarah Eddins and I live in Riverside, in the county of Riverside . I am writing to you all today, to move forward on the approval process for the Regional Recycled Water Project (RRWP). I care about water equity and local water because the climate crisis we are enduring is one that cannot be overlooked. Water is such a finite resource that we take for granted. Southern California relies too heavily on the MWD for such an important resource. Sustainable local water can ensure safe and stable water for generations to come! The RRWP could create thousands of jobs and save billions of gallons of wastewater annually.

The RRWP environmental planning is a critical step to make headway on a sustainable and local water supply. I believe you all will make the important decision to move forward on the next steps for the Regional Recycled Water Project today. Thank you.

Sincerely,

Sarah Eddins
