Oroville Dam Litigation (Sacramento County Superior Court)

Last July, the Board received a report on the status of the Oroville Dam litigation, which at that time was comprised of eight cases coordinated in Sacramento County Superior Court. One case filed by the Butte County District Attorney (*People of the State of California v. California Department of Water Resources, et al.*) alleged violations of the Fish and Game Code section 5650 and sought up to \$51 billion in civil penalties against DWR. DWR has publicly stated that any such penalties, if assessed, would be billed to and paid by the State Water Contractors (SWCs).

On September 3, 2020, Metropolitan, Kern County Water Agency, Santa Clara Valley Water District, Mojave Water Agency and State Water Contractors, Inc. (collectively, “Contractor Parties”) moved to intervene in the Butte County Case and along with that motion filed a demurrer seeking to have that case dismissed in its entirety on the grounds that Section 5650 is not applicable to government entities. On the same date, DWR filed a motion for summary adjudication seeking to have the Butte County Case dismissed on similar grounds.

On January 4, 2021, the court granted DWR’s motion and on January 22, entered judgment dismissing the Butte County Case. As a result, the Contractor Parties determined that there was no longer a sufficient need or advantage to participate directly in this case and, accordingly, they withdrew their motion to intervene. On February 9, the Butte County District Attorney filed a Notice of Appeal.

No briefing schedule or date for oral argument has been set.

The Contractor Parties will continue to monitor this case and anticipate seeking leave to participate in the appeal as *amici curiae* (“friends of the court”). Participating in this manner would allow the Contracting Parties to ensure that their legal positions and arguments concerning the applicability of Section 5650 are presented to the appellate court. (See General Counsel’s August and November 2020 Activity Reports.)

Food & Water Watch, et al. v. Metropolitan, et al. (Los Angeles Superior Court)

In September 2018, Food & Water Watch and Center for Food Safety filed a reverse validation action asserting multiple causes of action challenging the Board’s July 10, 2018 vote on California WaterFix.

Metropolitan filed a demurrer (motion to dismiss) to all the causes of action and SDCWA filed a demurrer only as to one of the claims. Plaintiffs amended the complaint and Metropolitan and SDCWA again filed similar demurrers. The court sustained (granted) Metropolitan’s entire demurrer and SDCWA’s demurrer without granting plaintiffs leave to amend concluding the case at the trial court level.

Plaintiffs appealed and the case is now pending before the 2nd District Court of Appeal. Briefing is complete and the Court has set oral argument for March 9, 2021 at 1:30 p.m. via video appearance. (See General Counsel’s August 2020 Activity Report.)

Other Matters

Finance

On February 4, 2021, Metropolitan issued \$188,890,000 Water Revenue Bonds, 2021 Series A (Bonds). Bond proceeds will fund the acquisition and construction of capital improvements to Metropolitan’s Water System. During a 4-month

process that began in October 2020, Legal Department staff attorneys worked with Finance, Engineering and Water Resources staff to prepare the official statement used to market the Bonds and assisted outside bond and disclosure counsel with the drafting and negotiation of several contracts and closing certificates.
